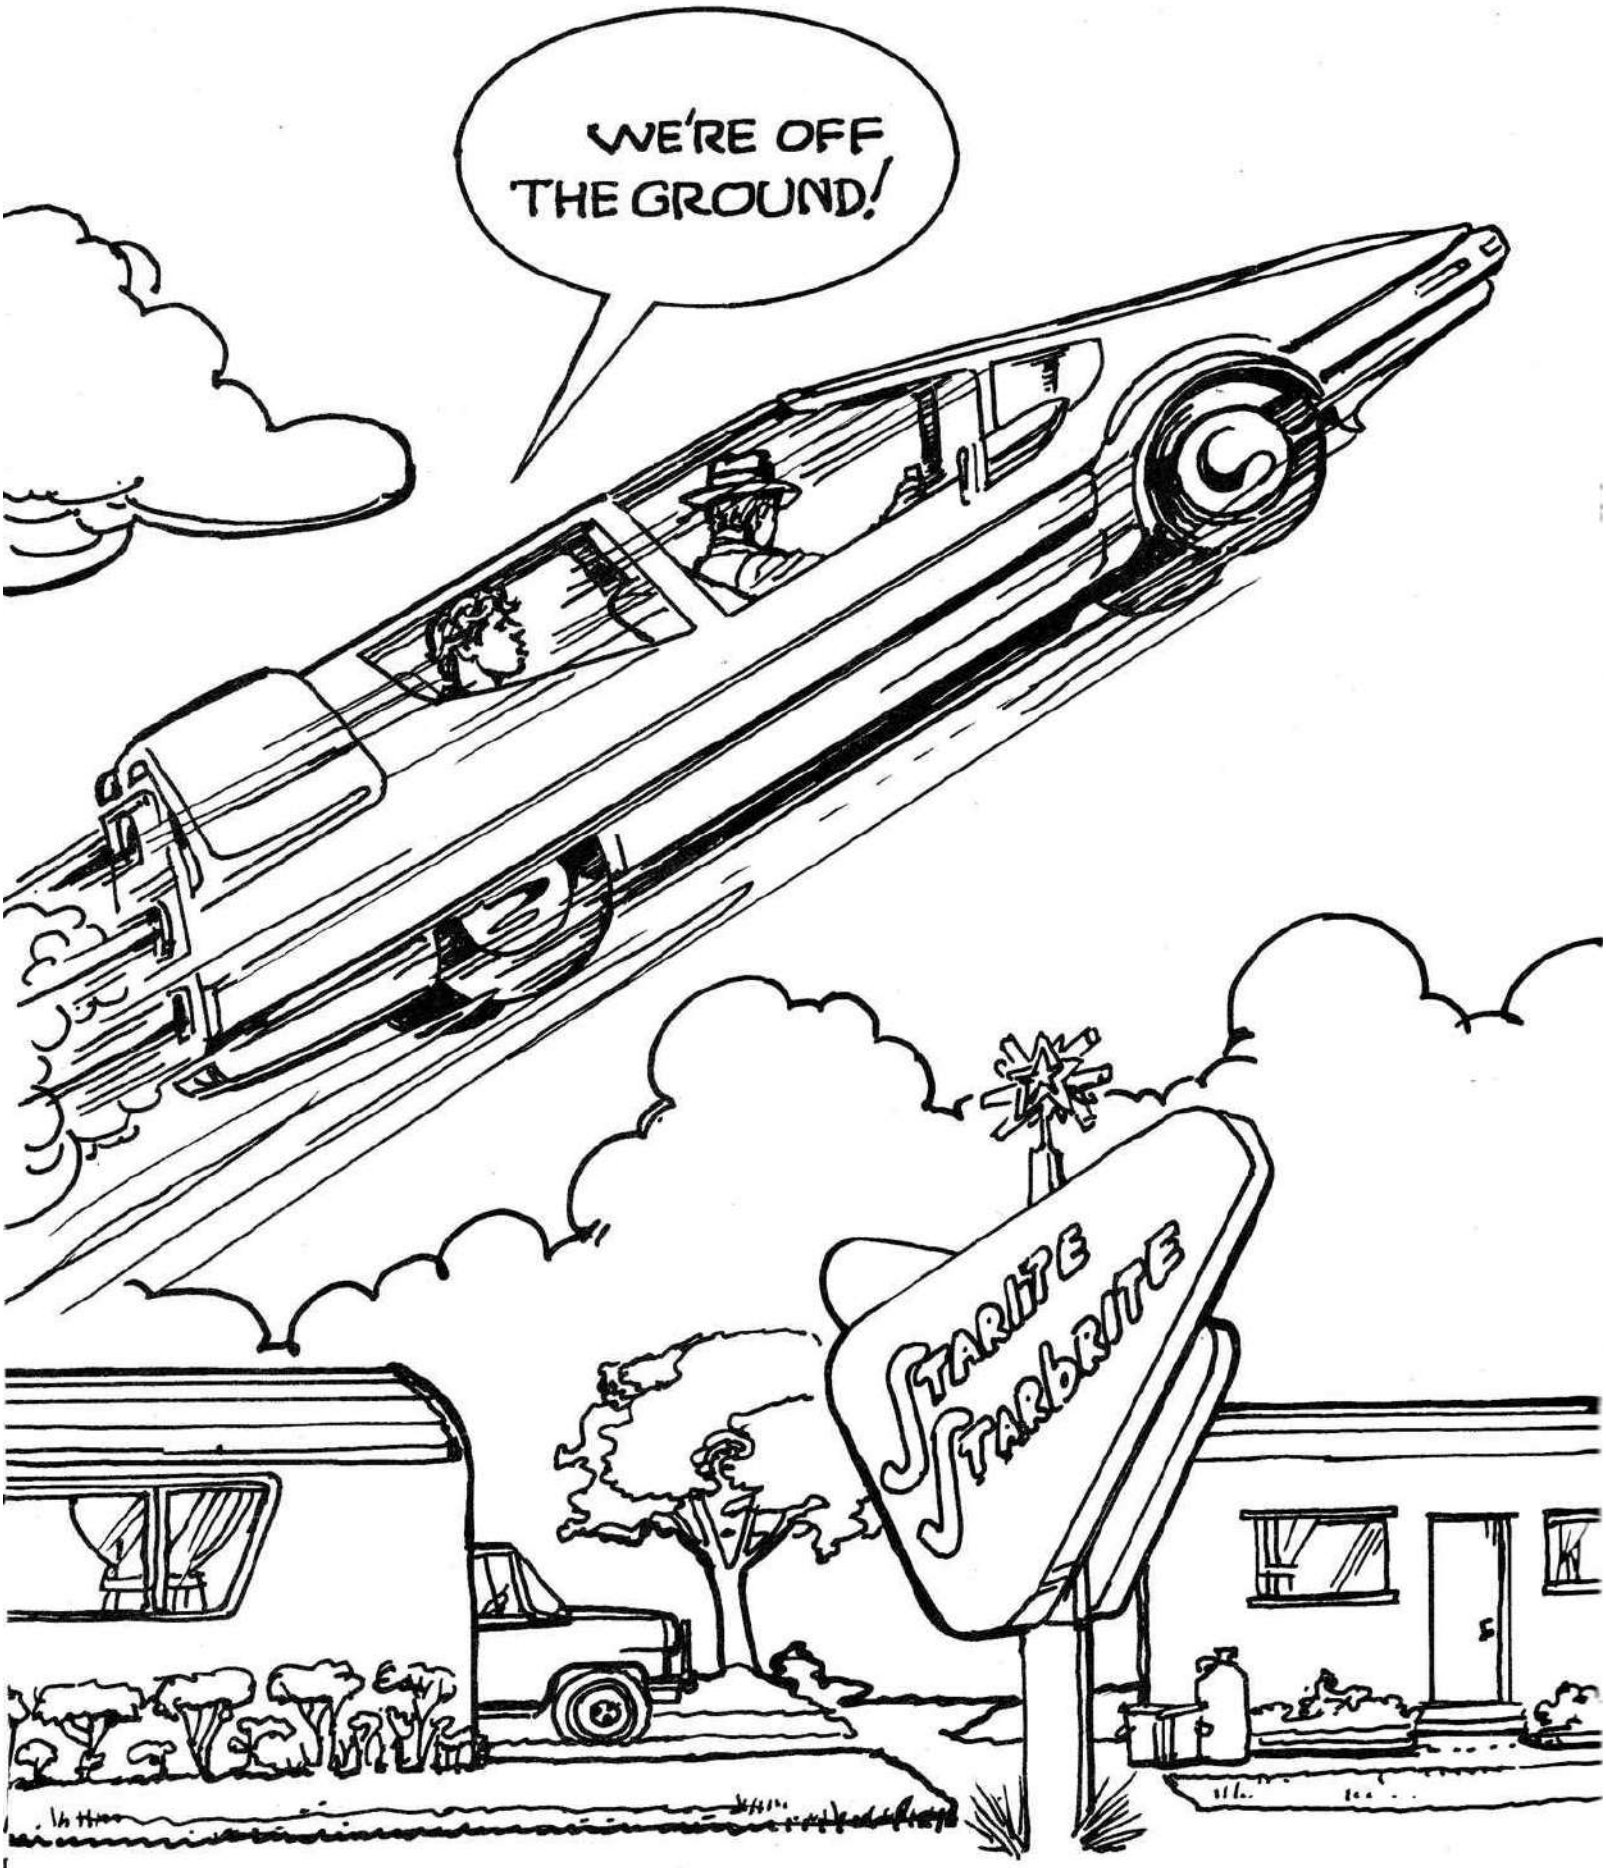
Alex plays the game, "Starfighter." His brother Louis cheers him on.

Maggie, Alex's girlfriend, is going on a picnic.

After winning this game, Alex's life will never be the same.

Alex meets Centauri, and adventure begins!

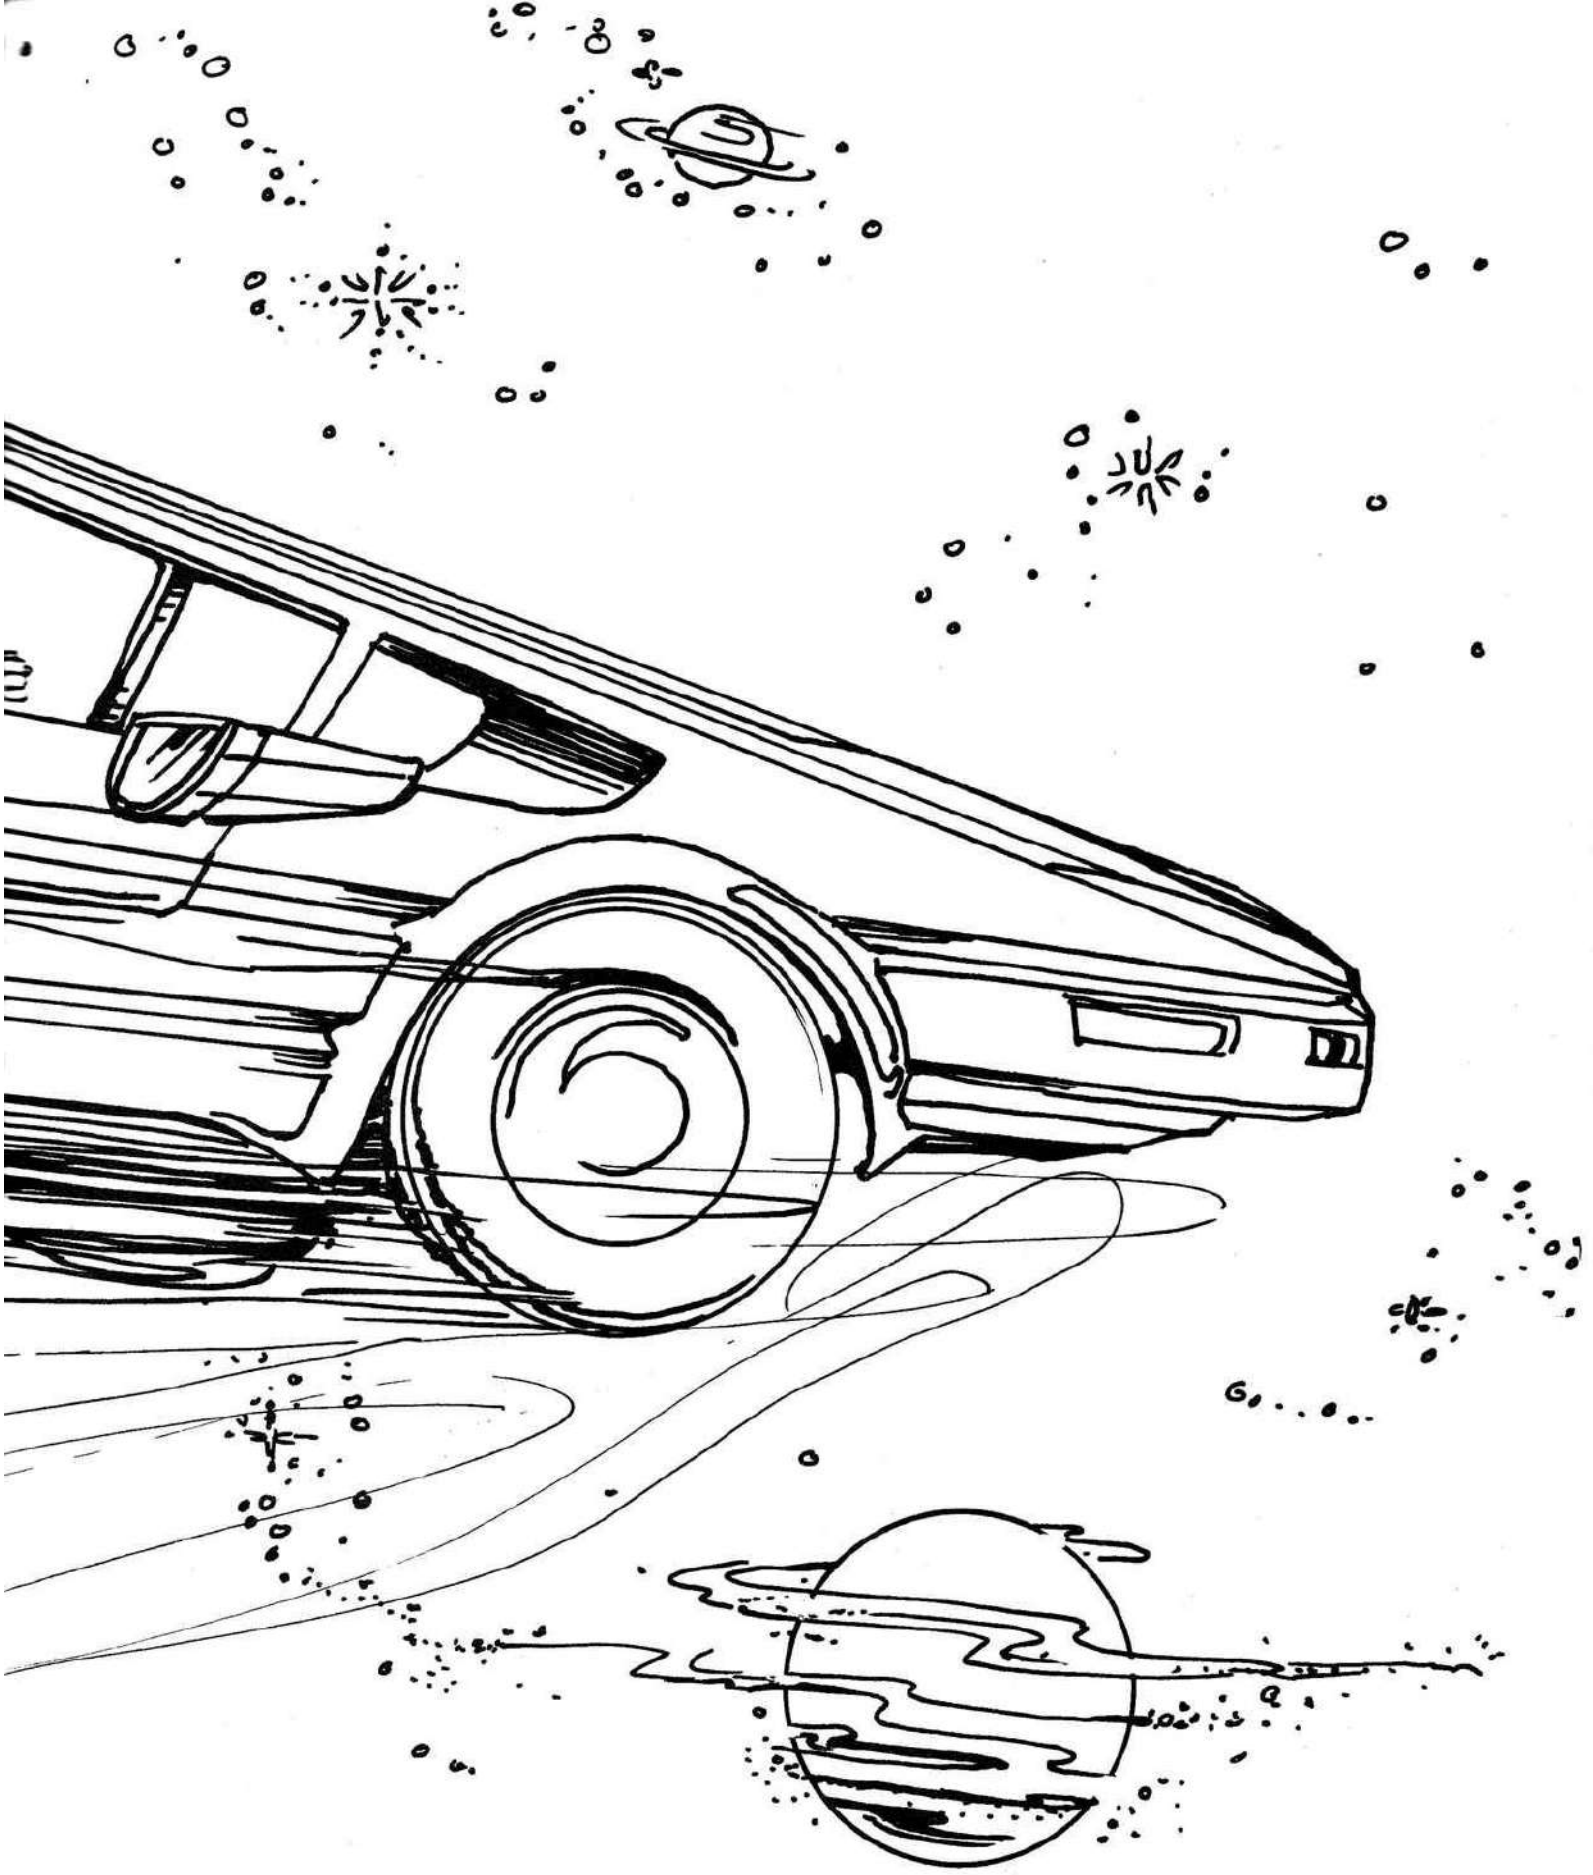
Alex shakes hands with Beta, a robot.



Centauri's car zooms into the air...with Alex inside!

Centauri changes into his alien face.

"Things are getting weirder by the minute," Says Alex.



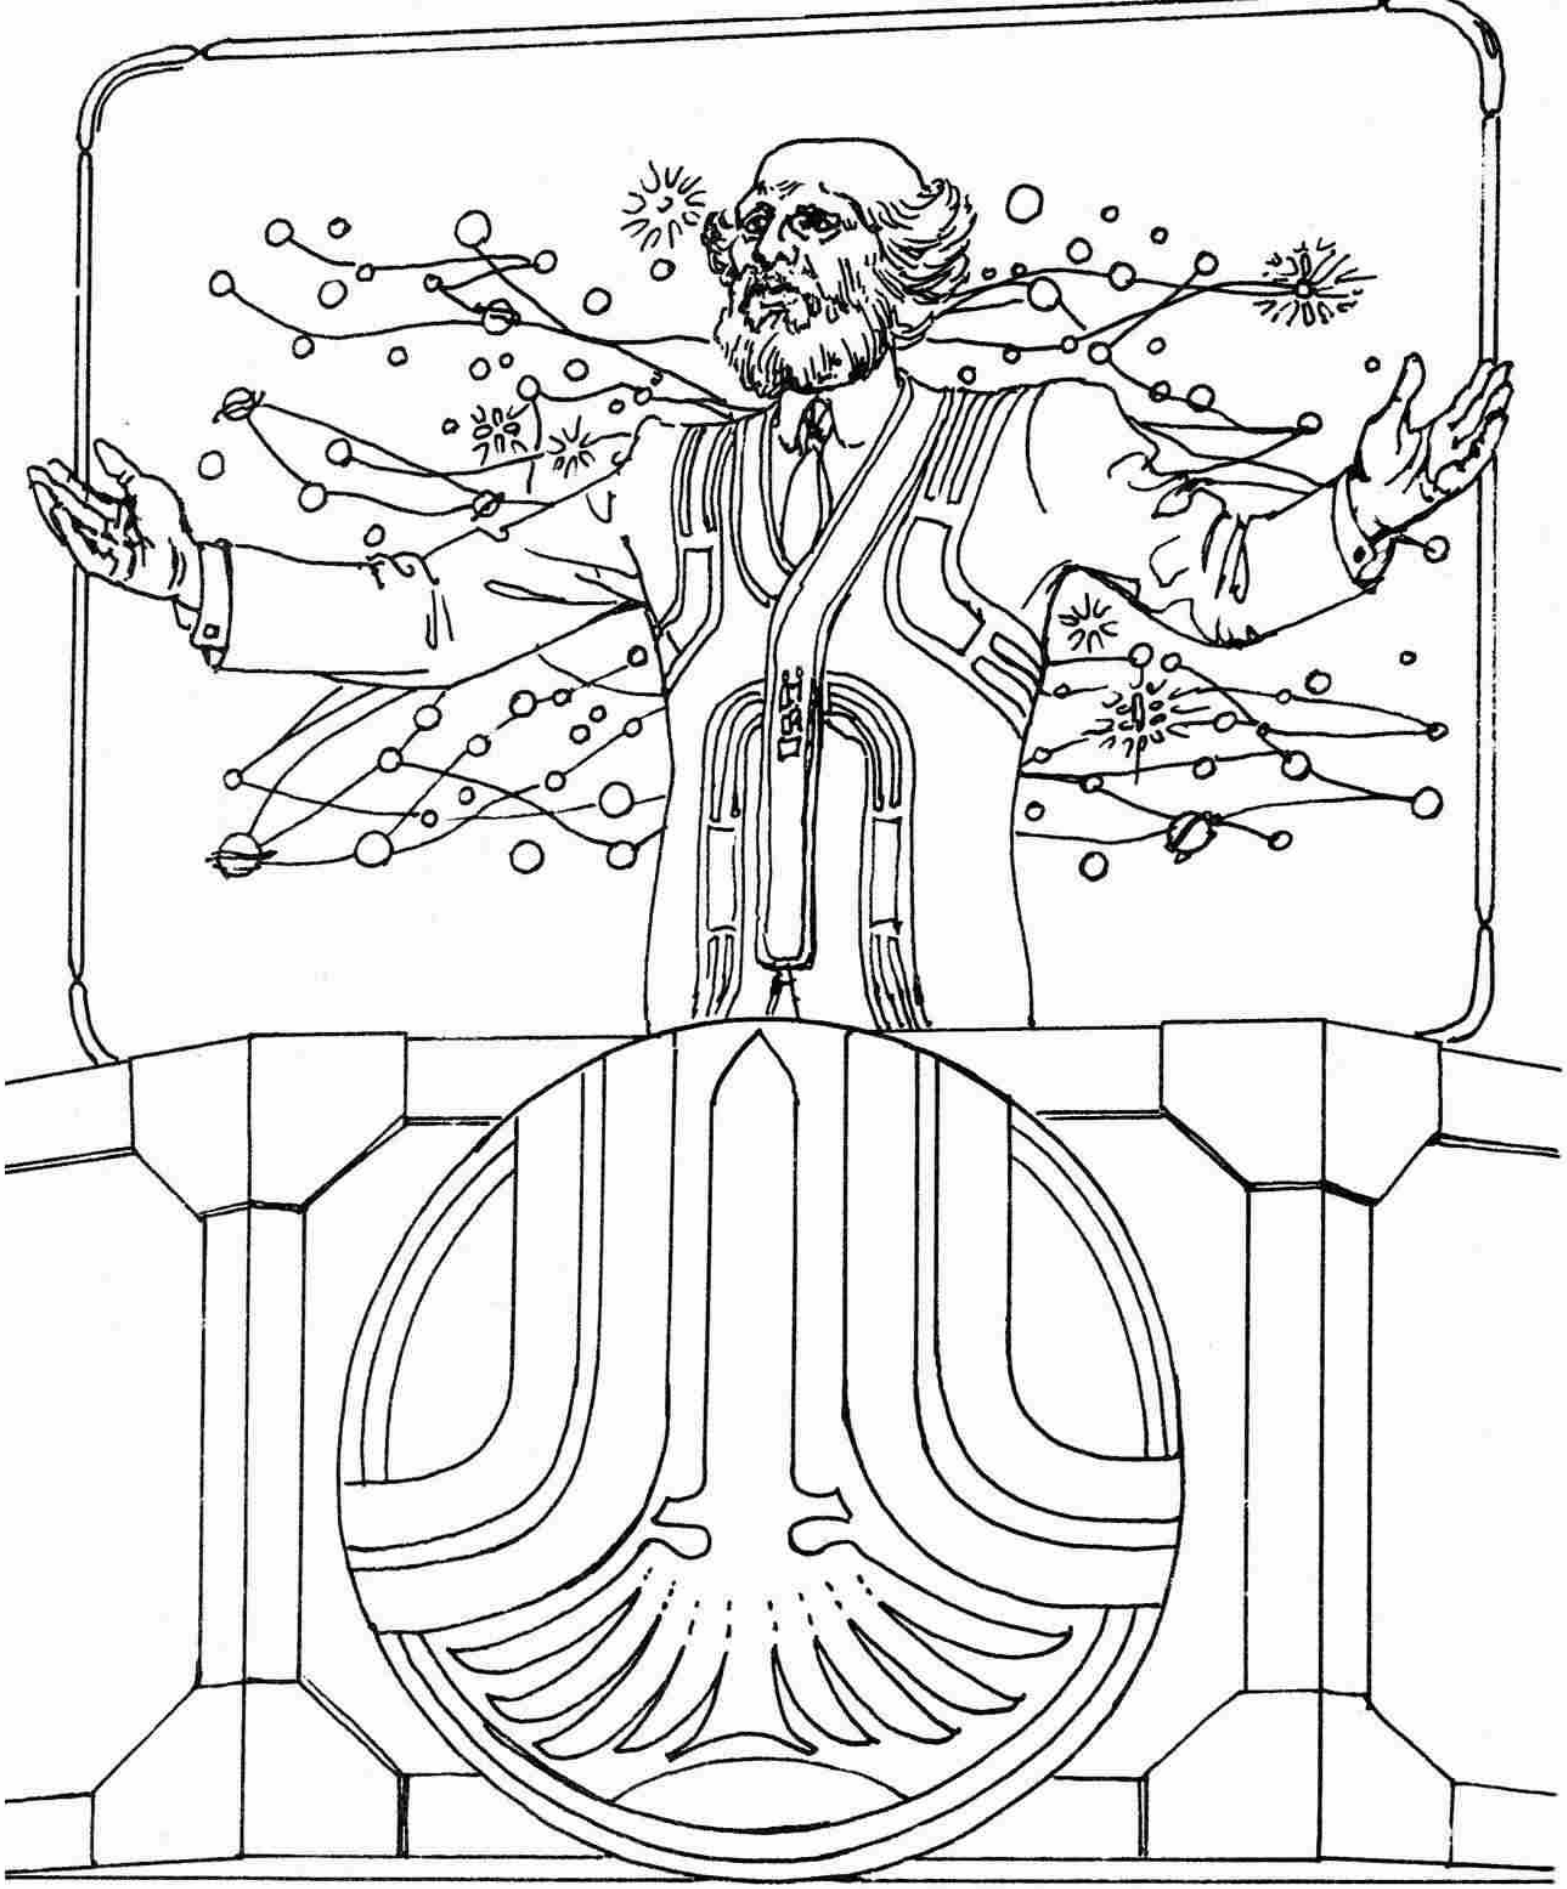
The starcar approaches the planet Rylos.

Alex can't understand a word the alien is saying.

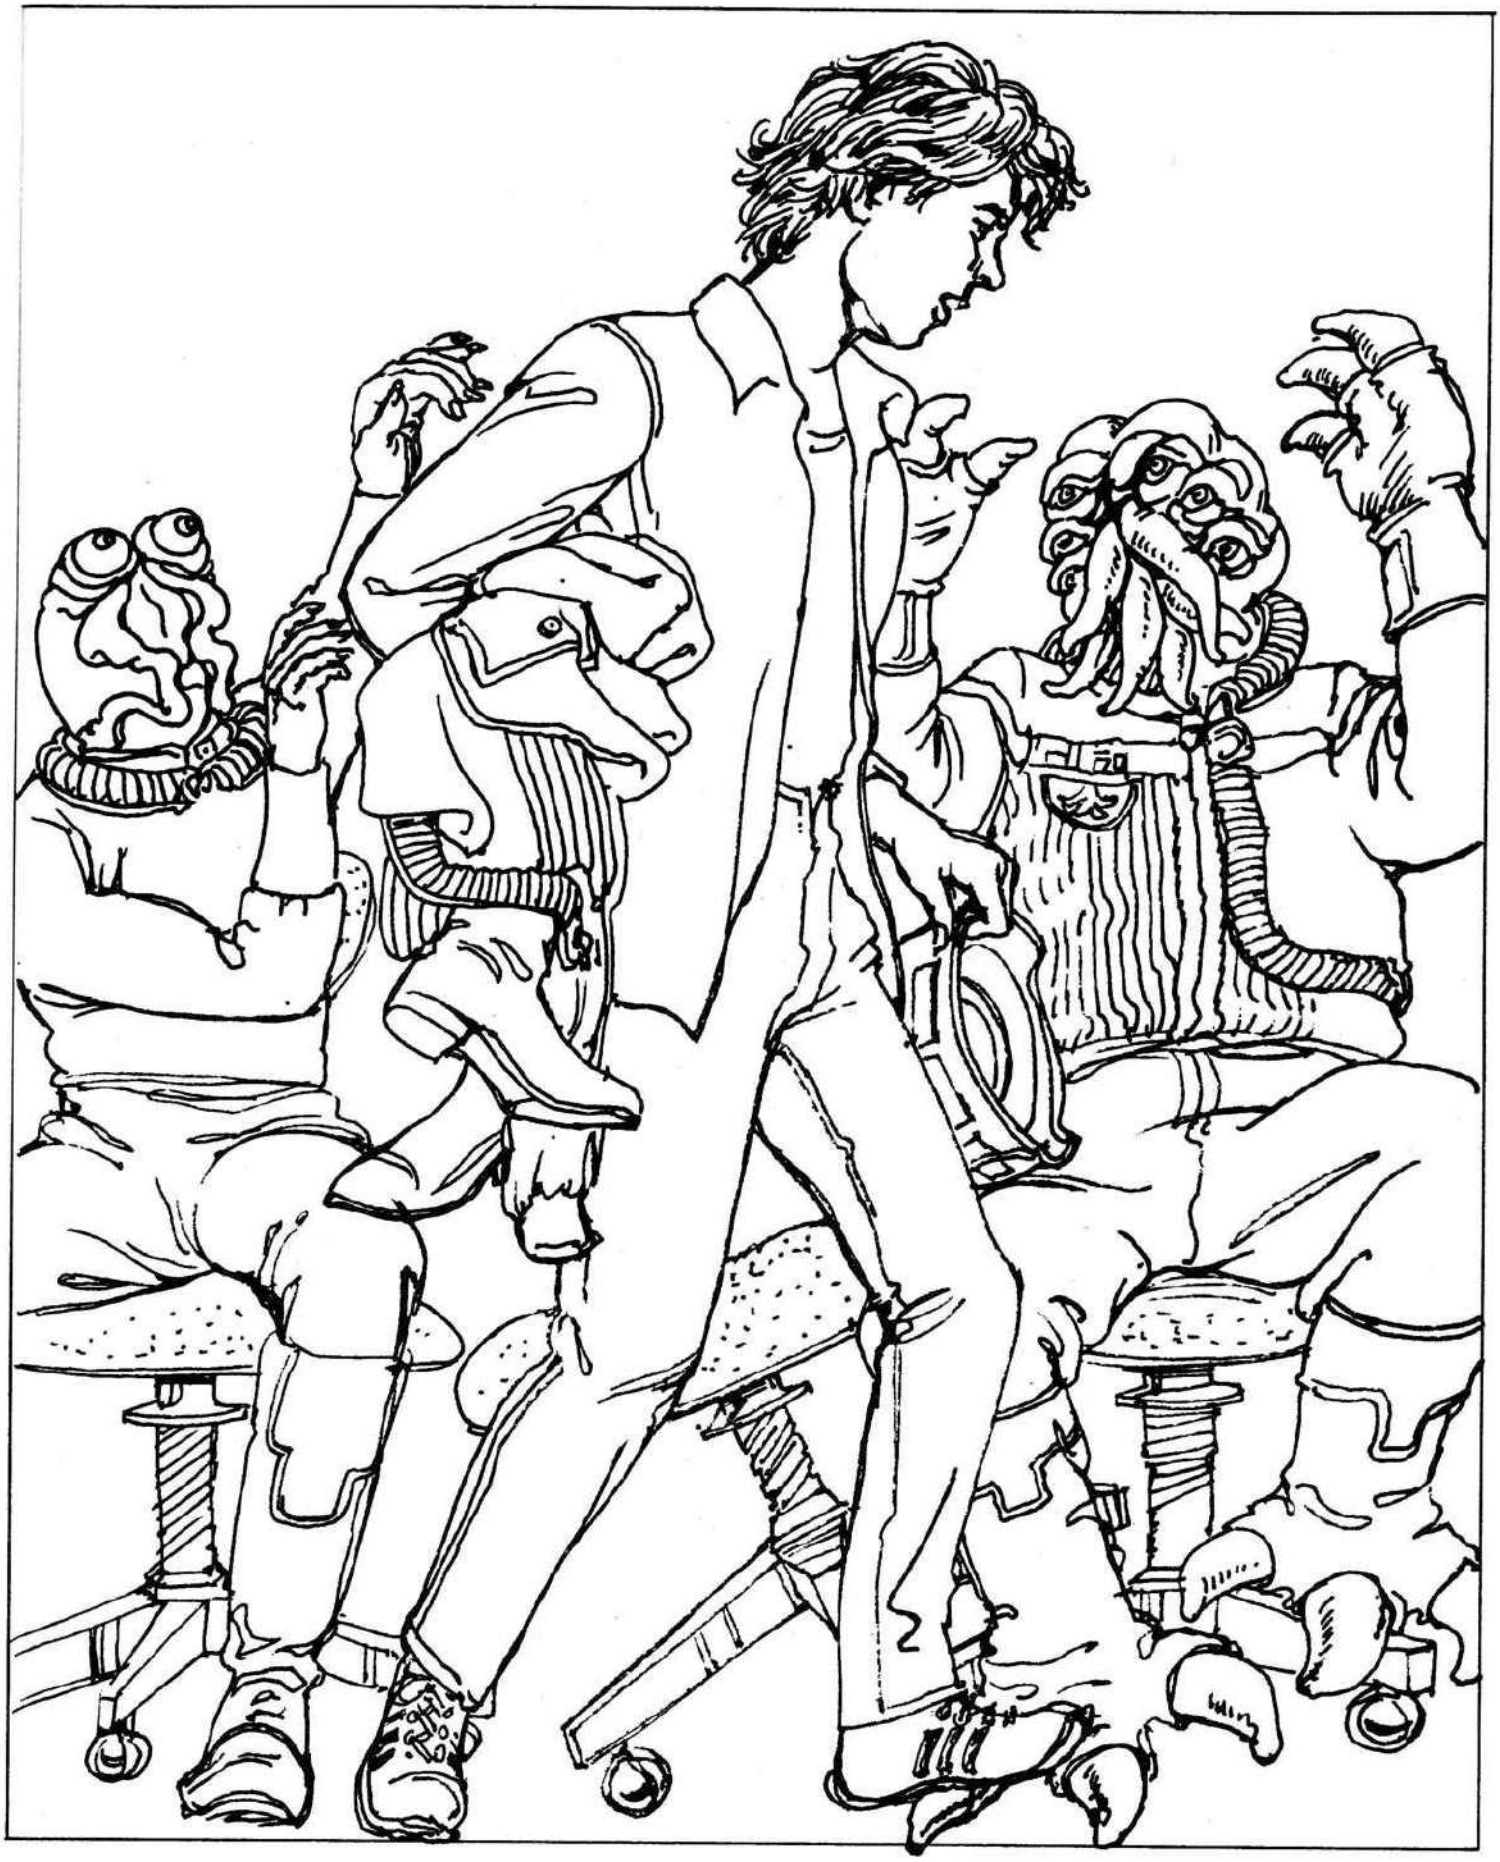
The warboard looks just like the video game back home.

Alex gets a translator button to understand the Rylan language.

"We need you to fight against the Ko-Dan," says Centauri.
"Just like in the video game."

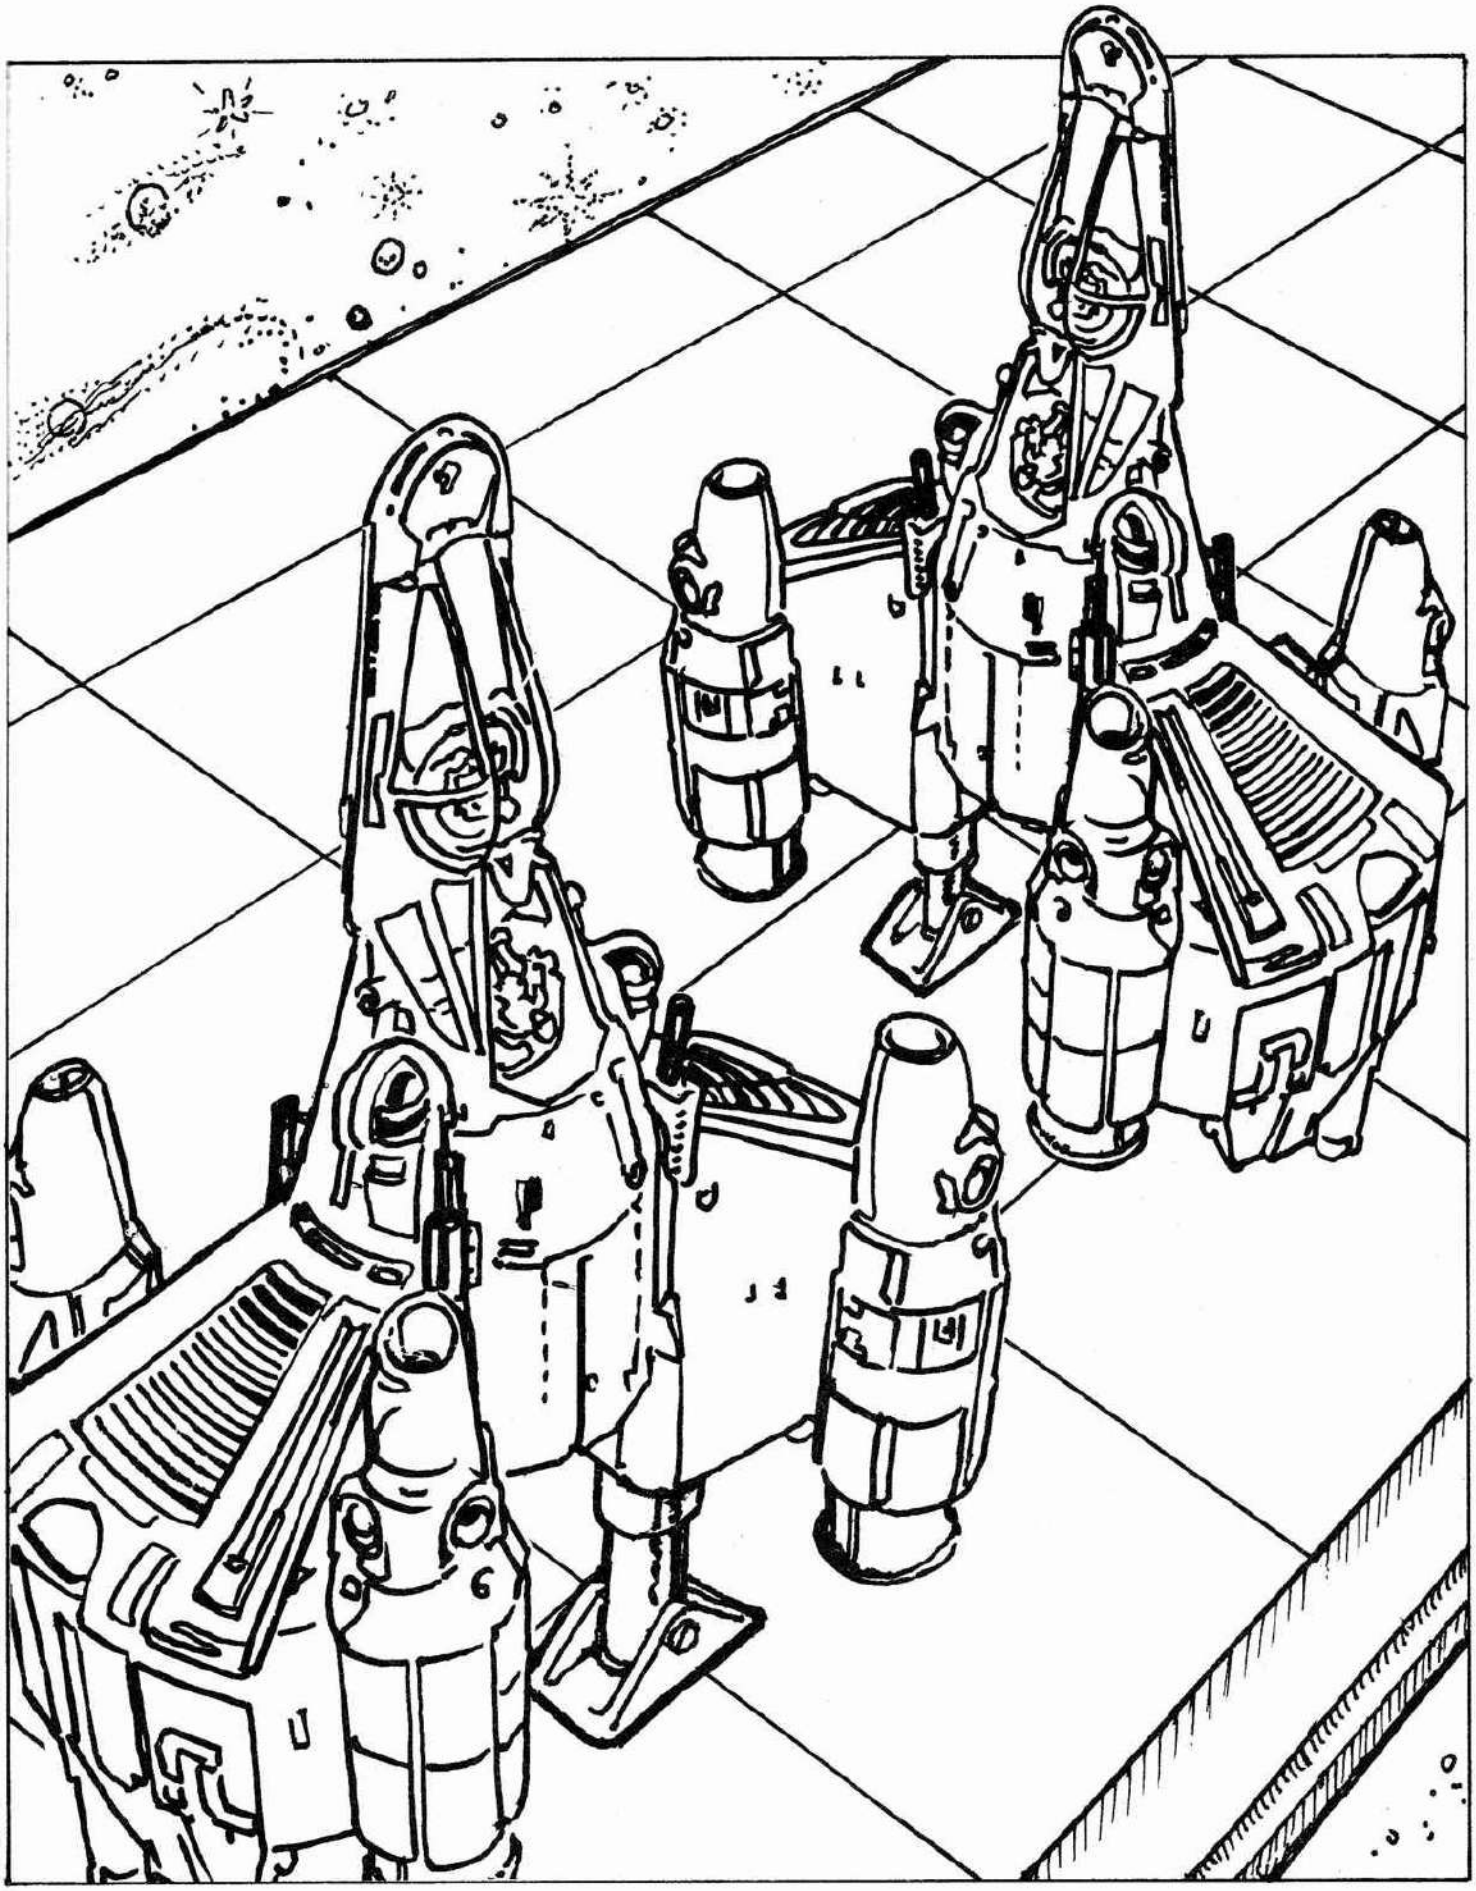


Enduran, ruler of the Star League, says, "We must defend the frontier from Xur and the Ko-Dan Armada."



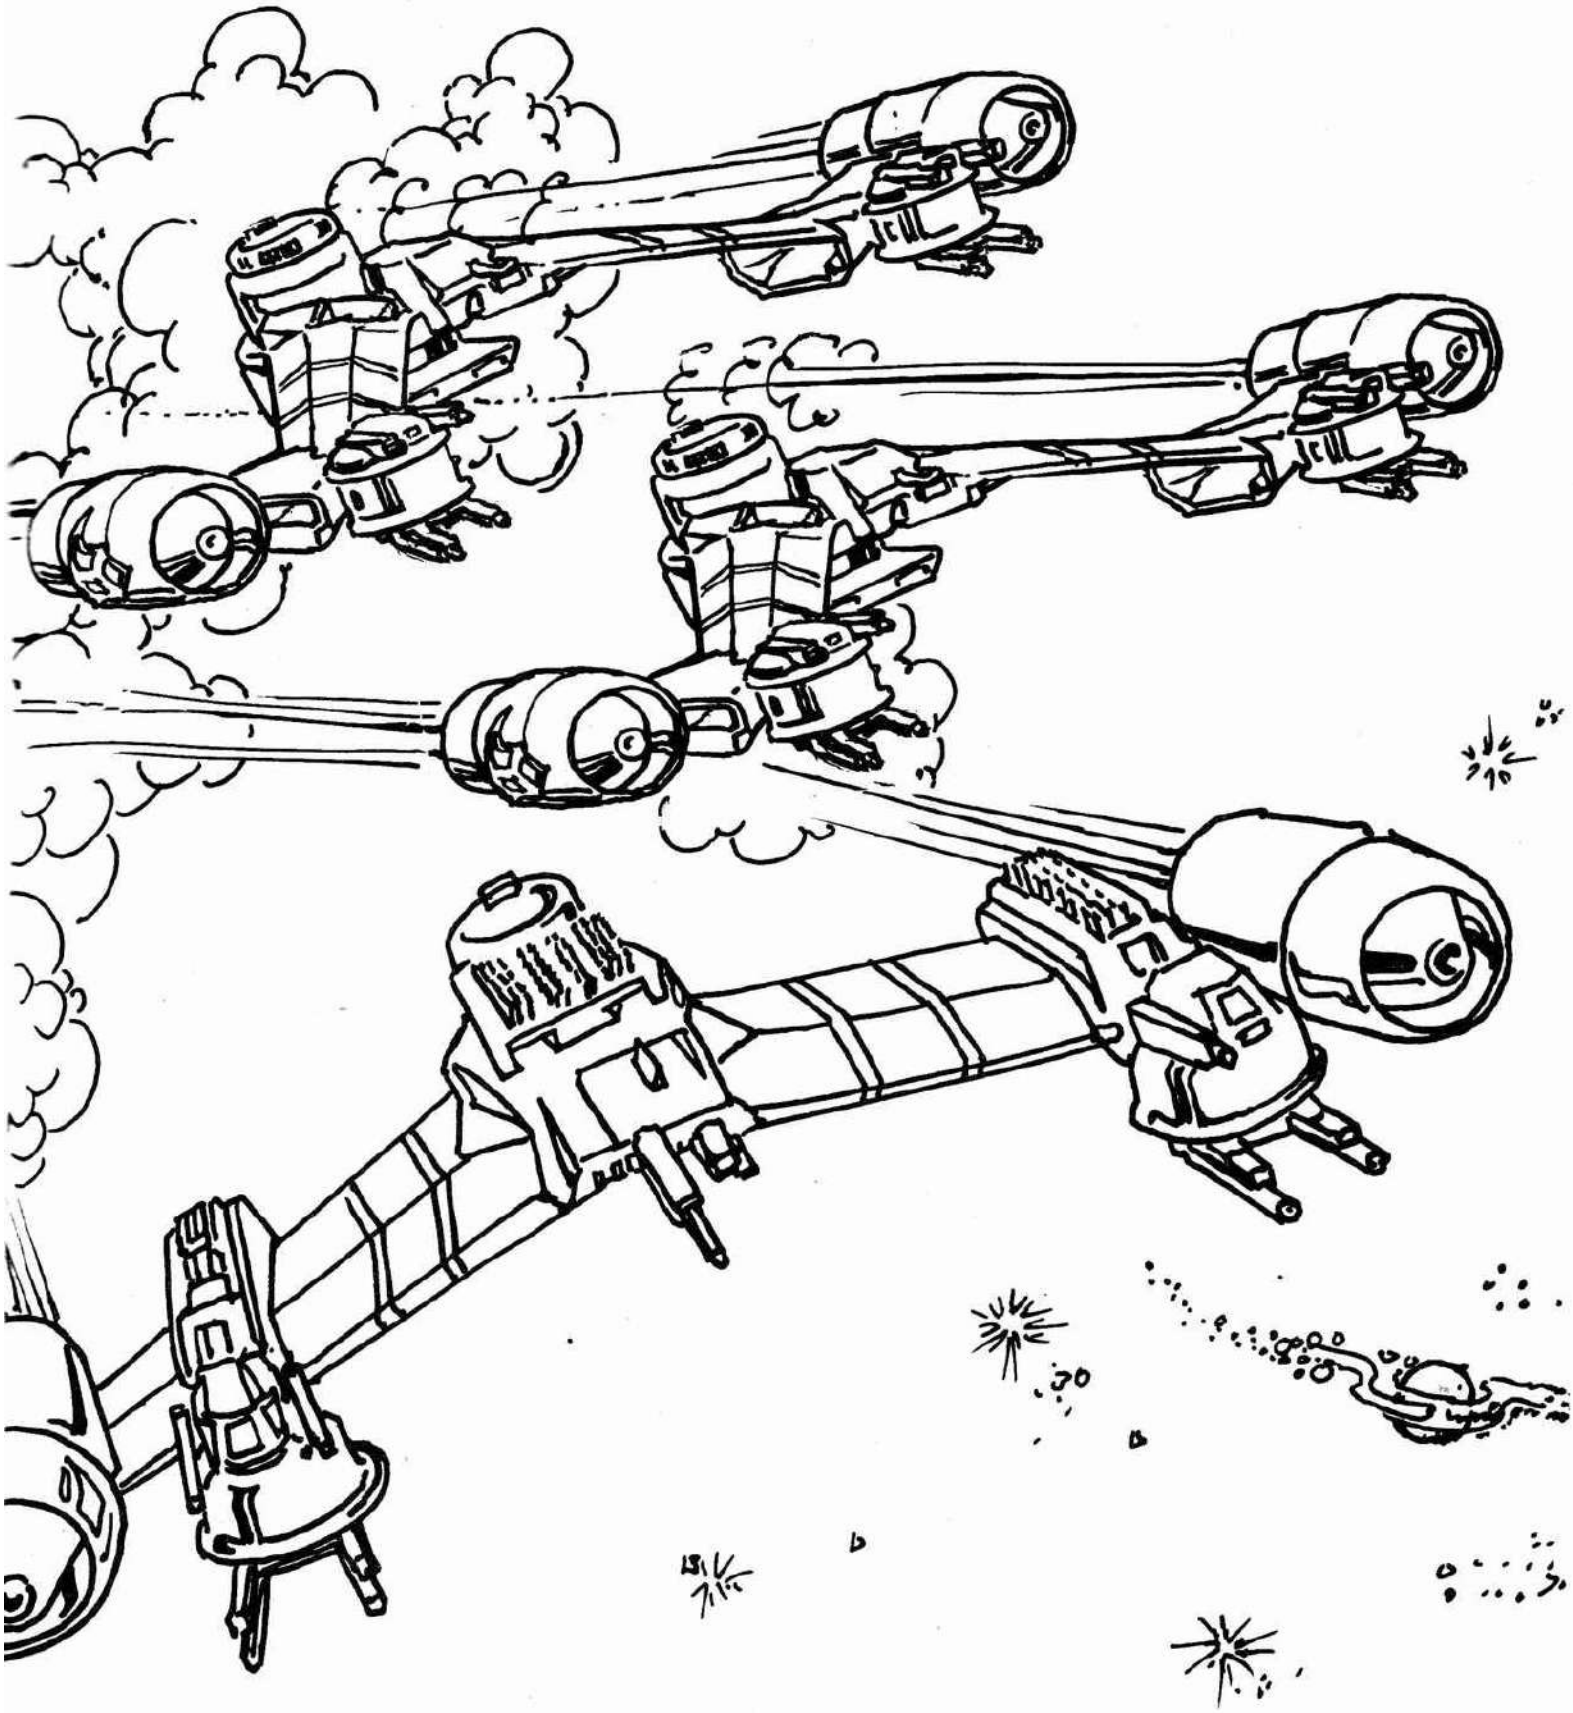
"Sorry, I didn't mean to step on you," Alex says to an alien.

Alex meets Grig, the Star League's first-class navigator.

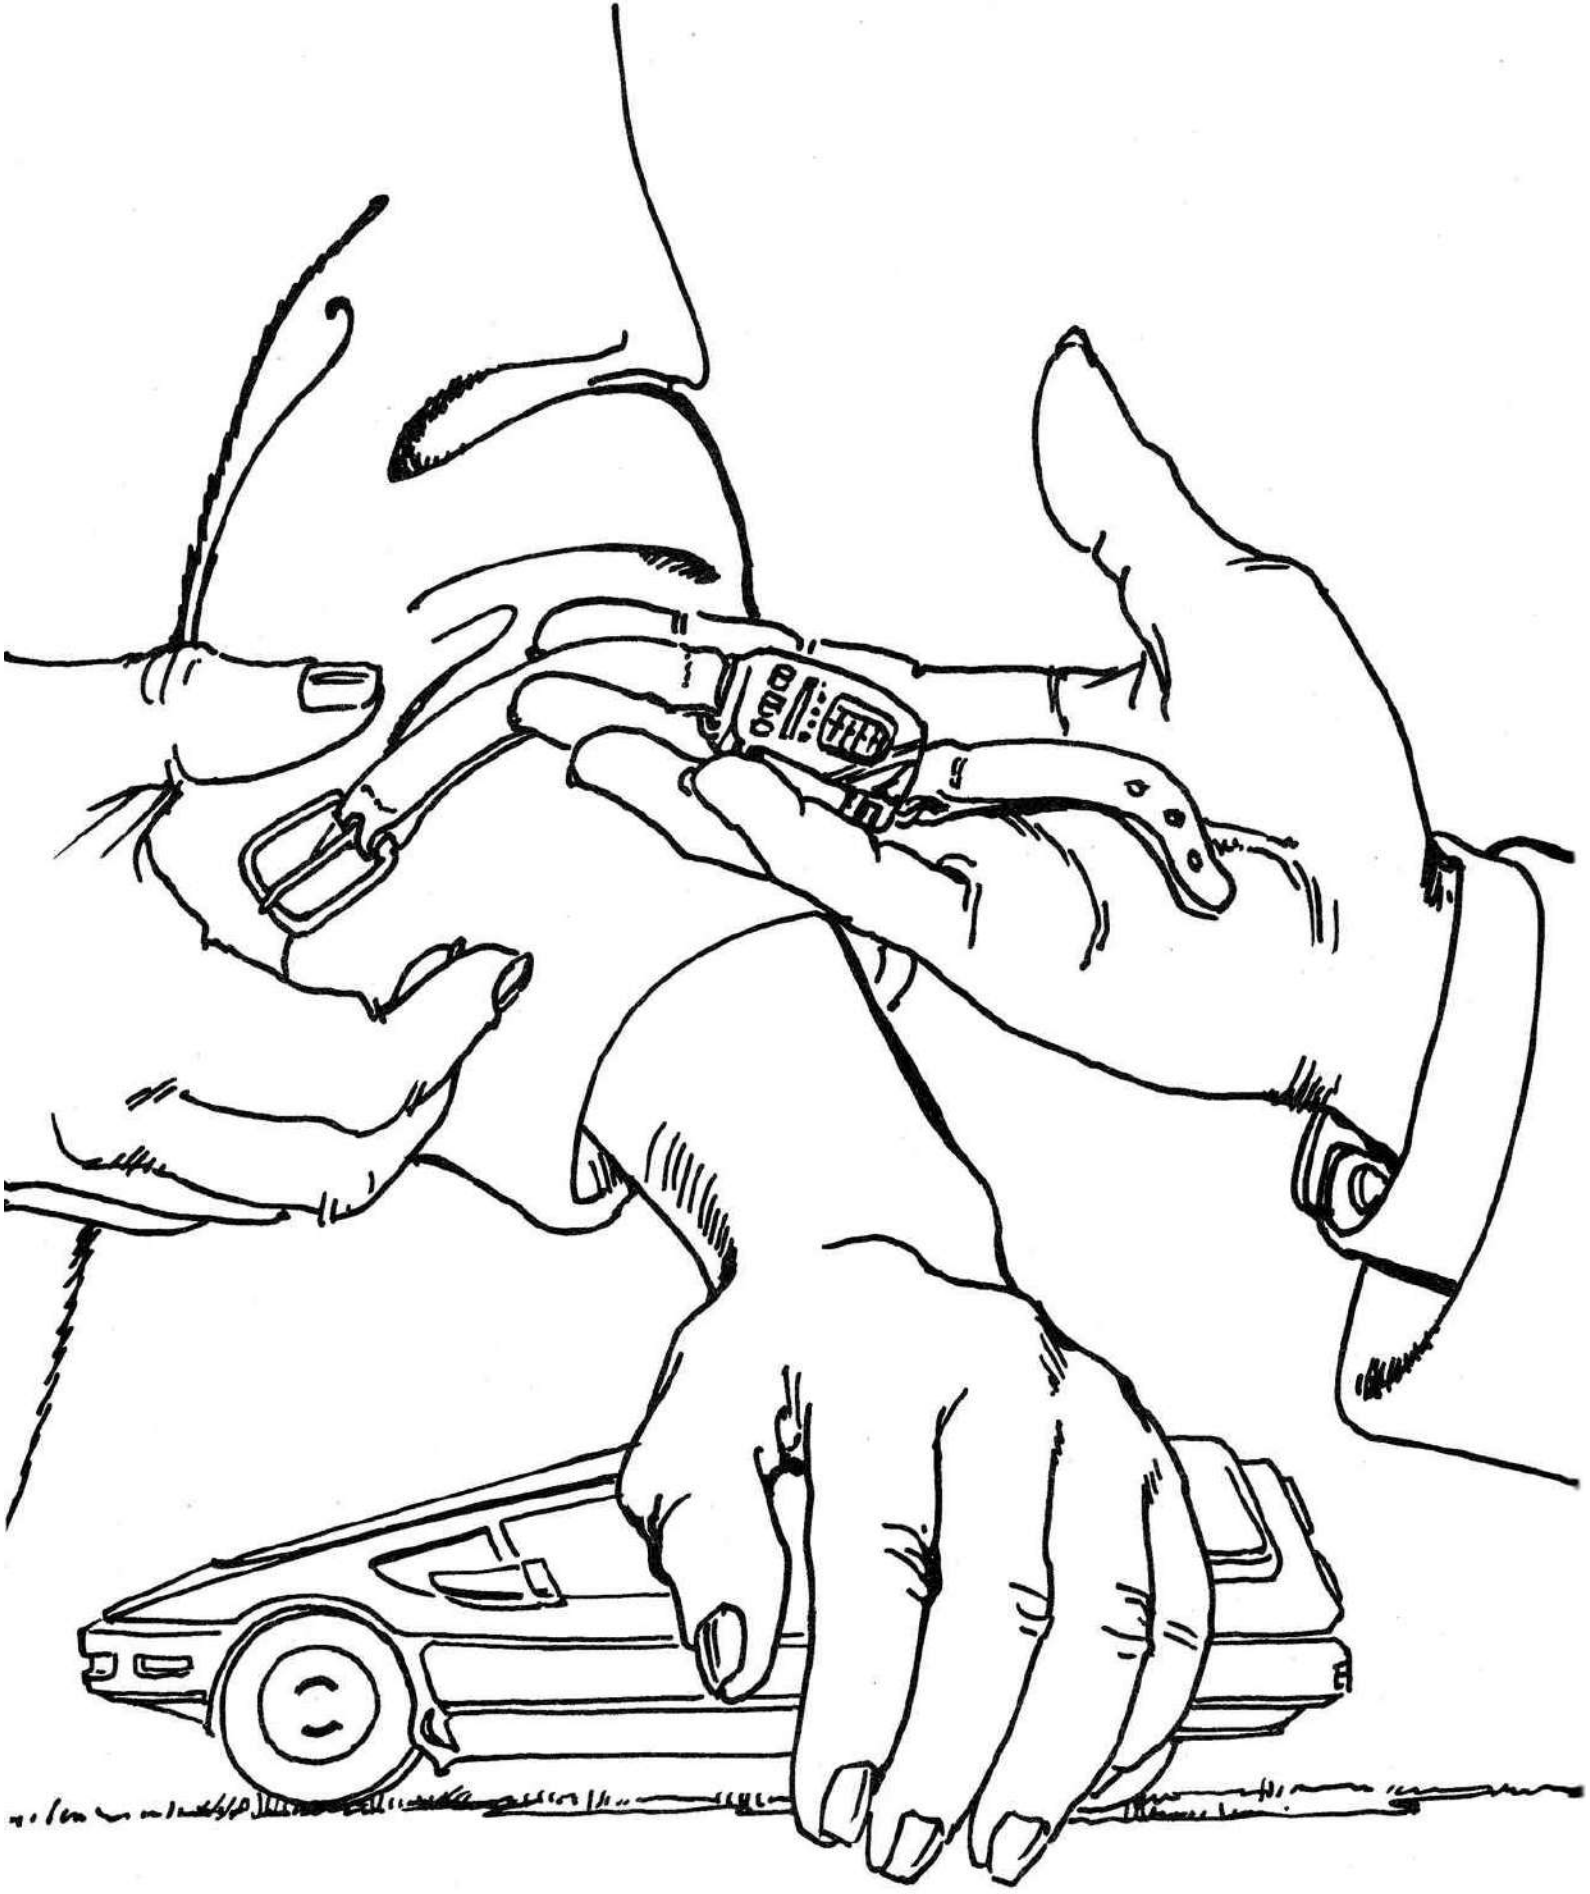


The Starfighters are ready to defend the frontier.

Xur, leader of the Ko-Dan, is ready to attack.



The Ko-Dan Command prepares for battle.



Alex doesn't want to fight. He asks Centauri to take him home. On Earth Centauri gives Alex a communo-command crystal to call for help.

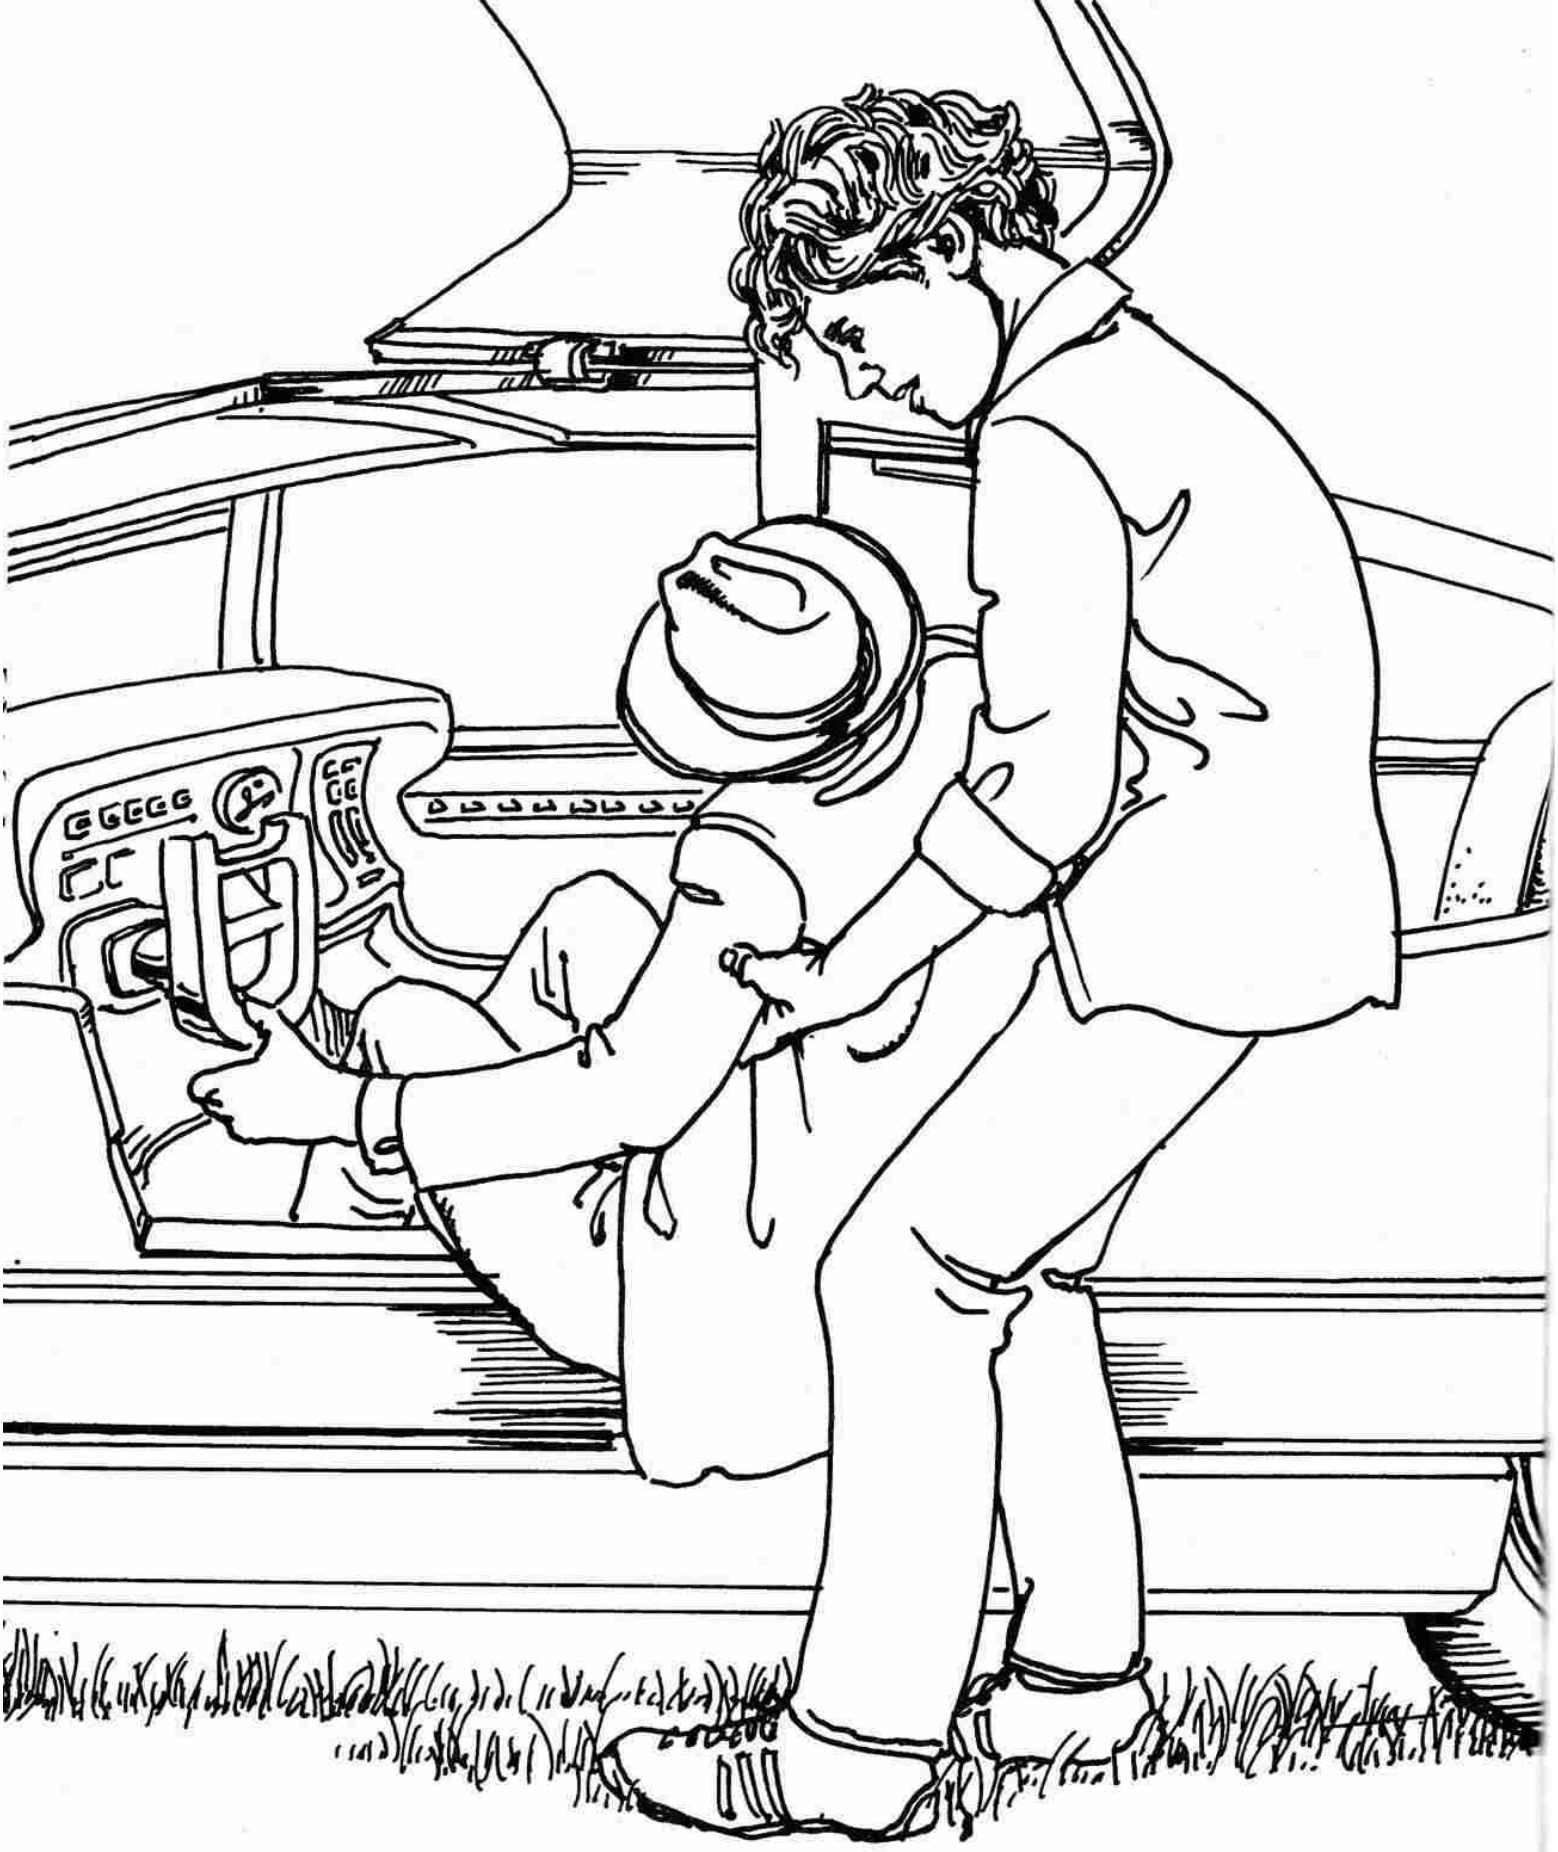
At home, Alex meets Beta.

Oh, no! Xur has sent a Ko-Dan hitbeast to get Alex!

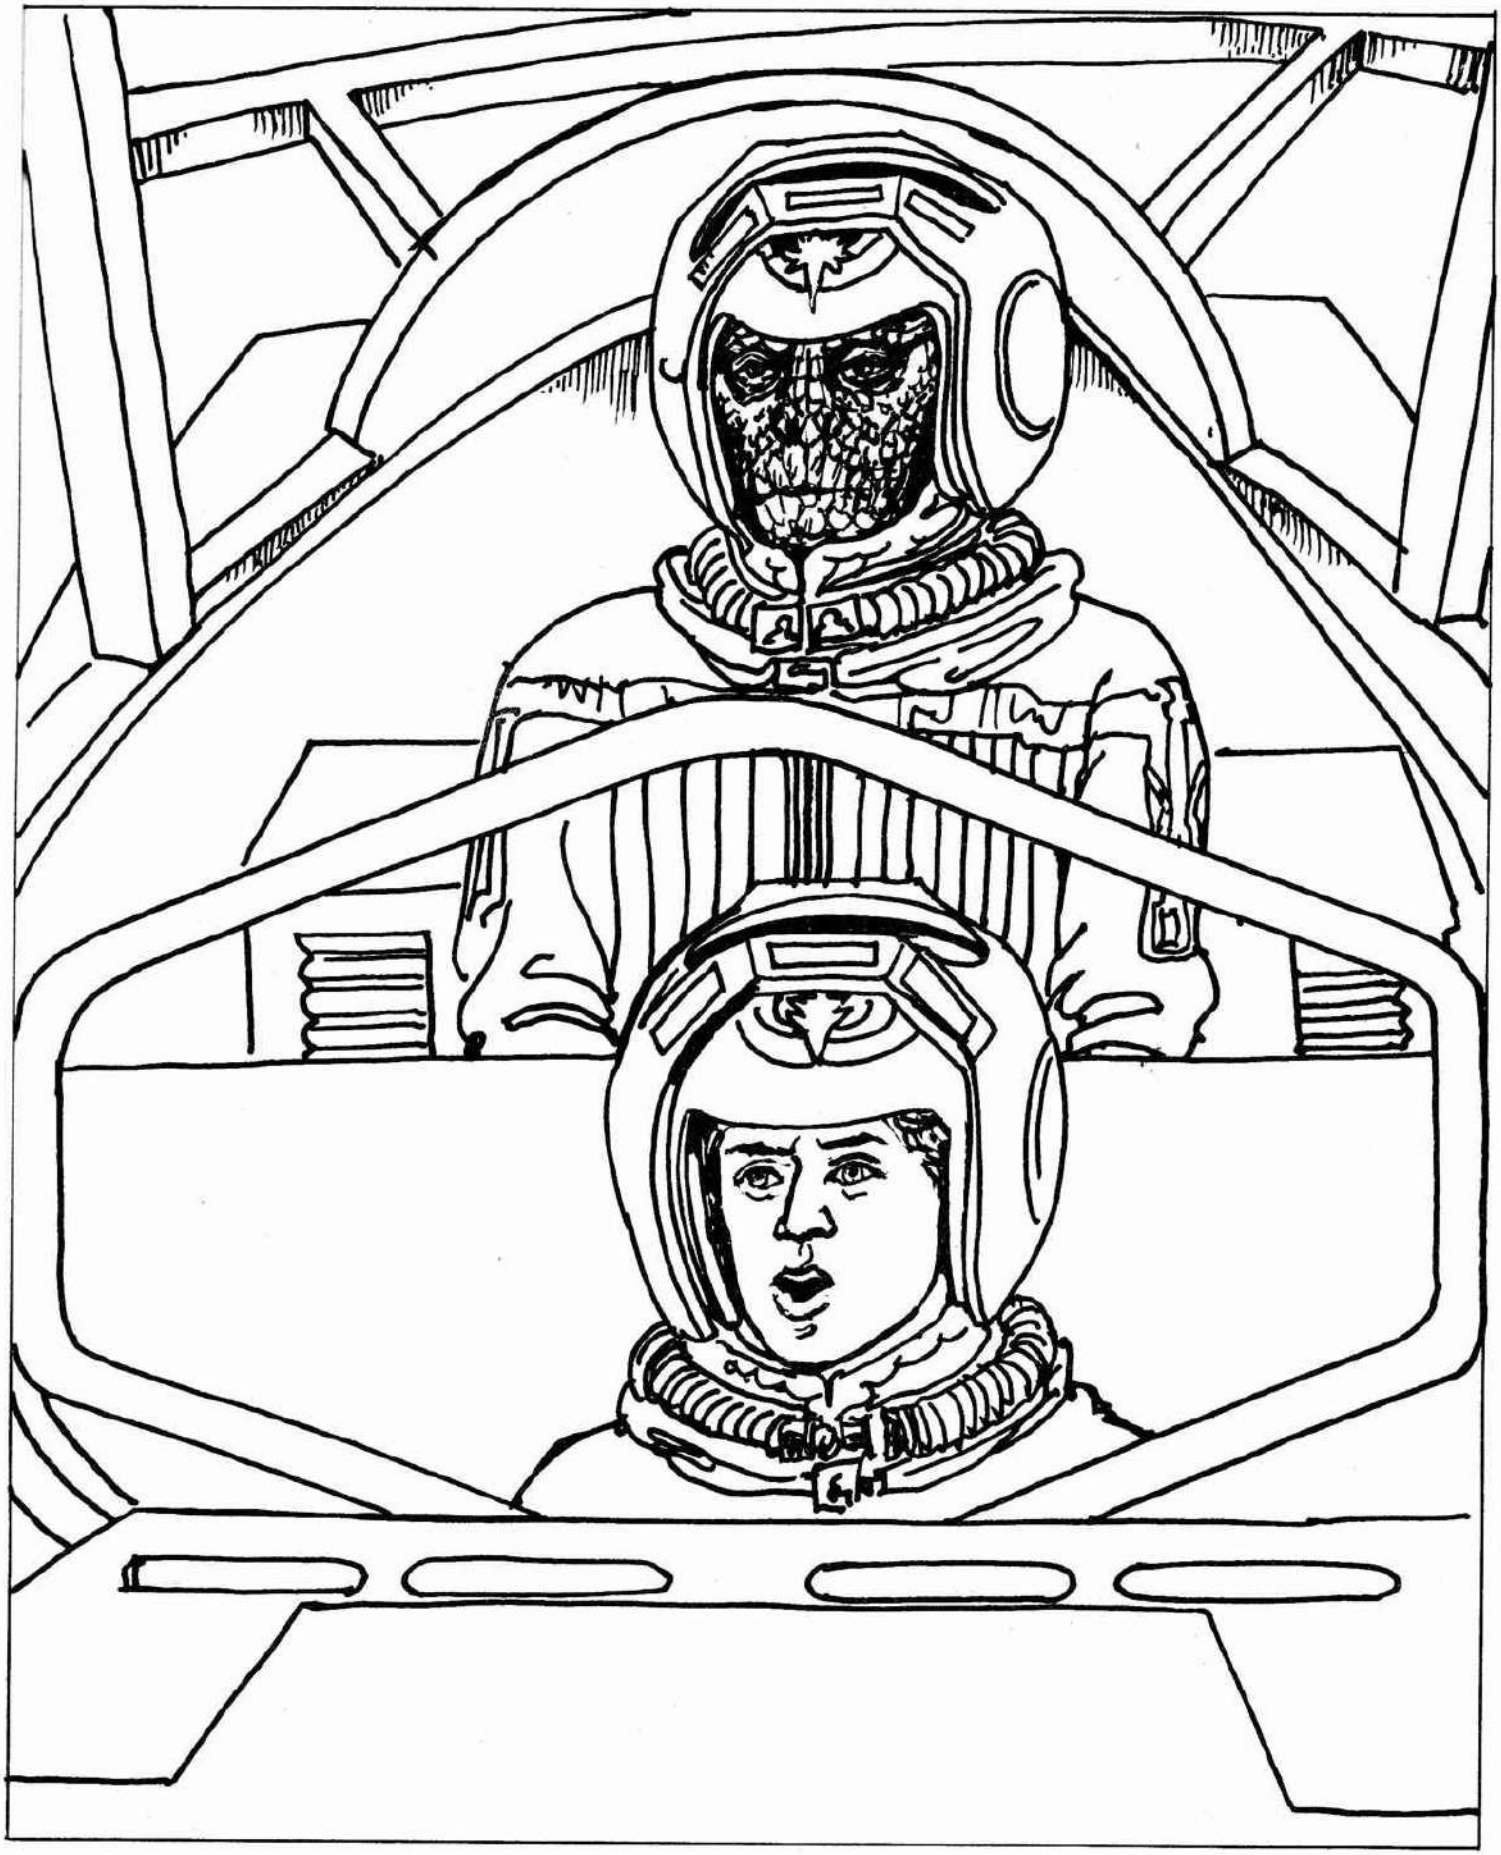
As the hitbeast attacks, Alex calls Centauri for help.

Centauri comes to the rescue and hits the hitbeast in the nick of time.

But the hitbeast gets up and shoots, hitting Centauri, instead of Alex.



Alex puts the wounded Centauri into the starcar. To save himself and Earth, Alex returns to Rylos.



Grig explains to Alex, "You are the Last Starfighter left. We alone must fight off the Ko-Dan."

Maggie doesn't know that Beta is a robot that looks exactly like Alex.

Another hitbeast tries to get Beta, thinking he's Alex.

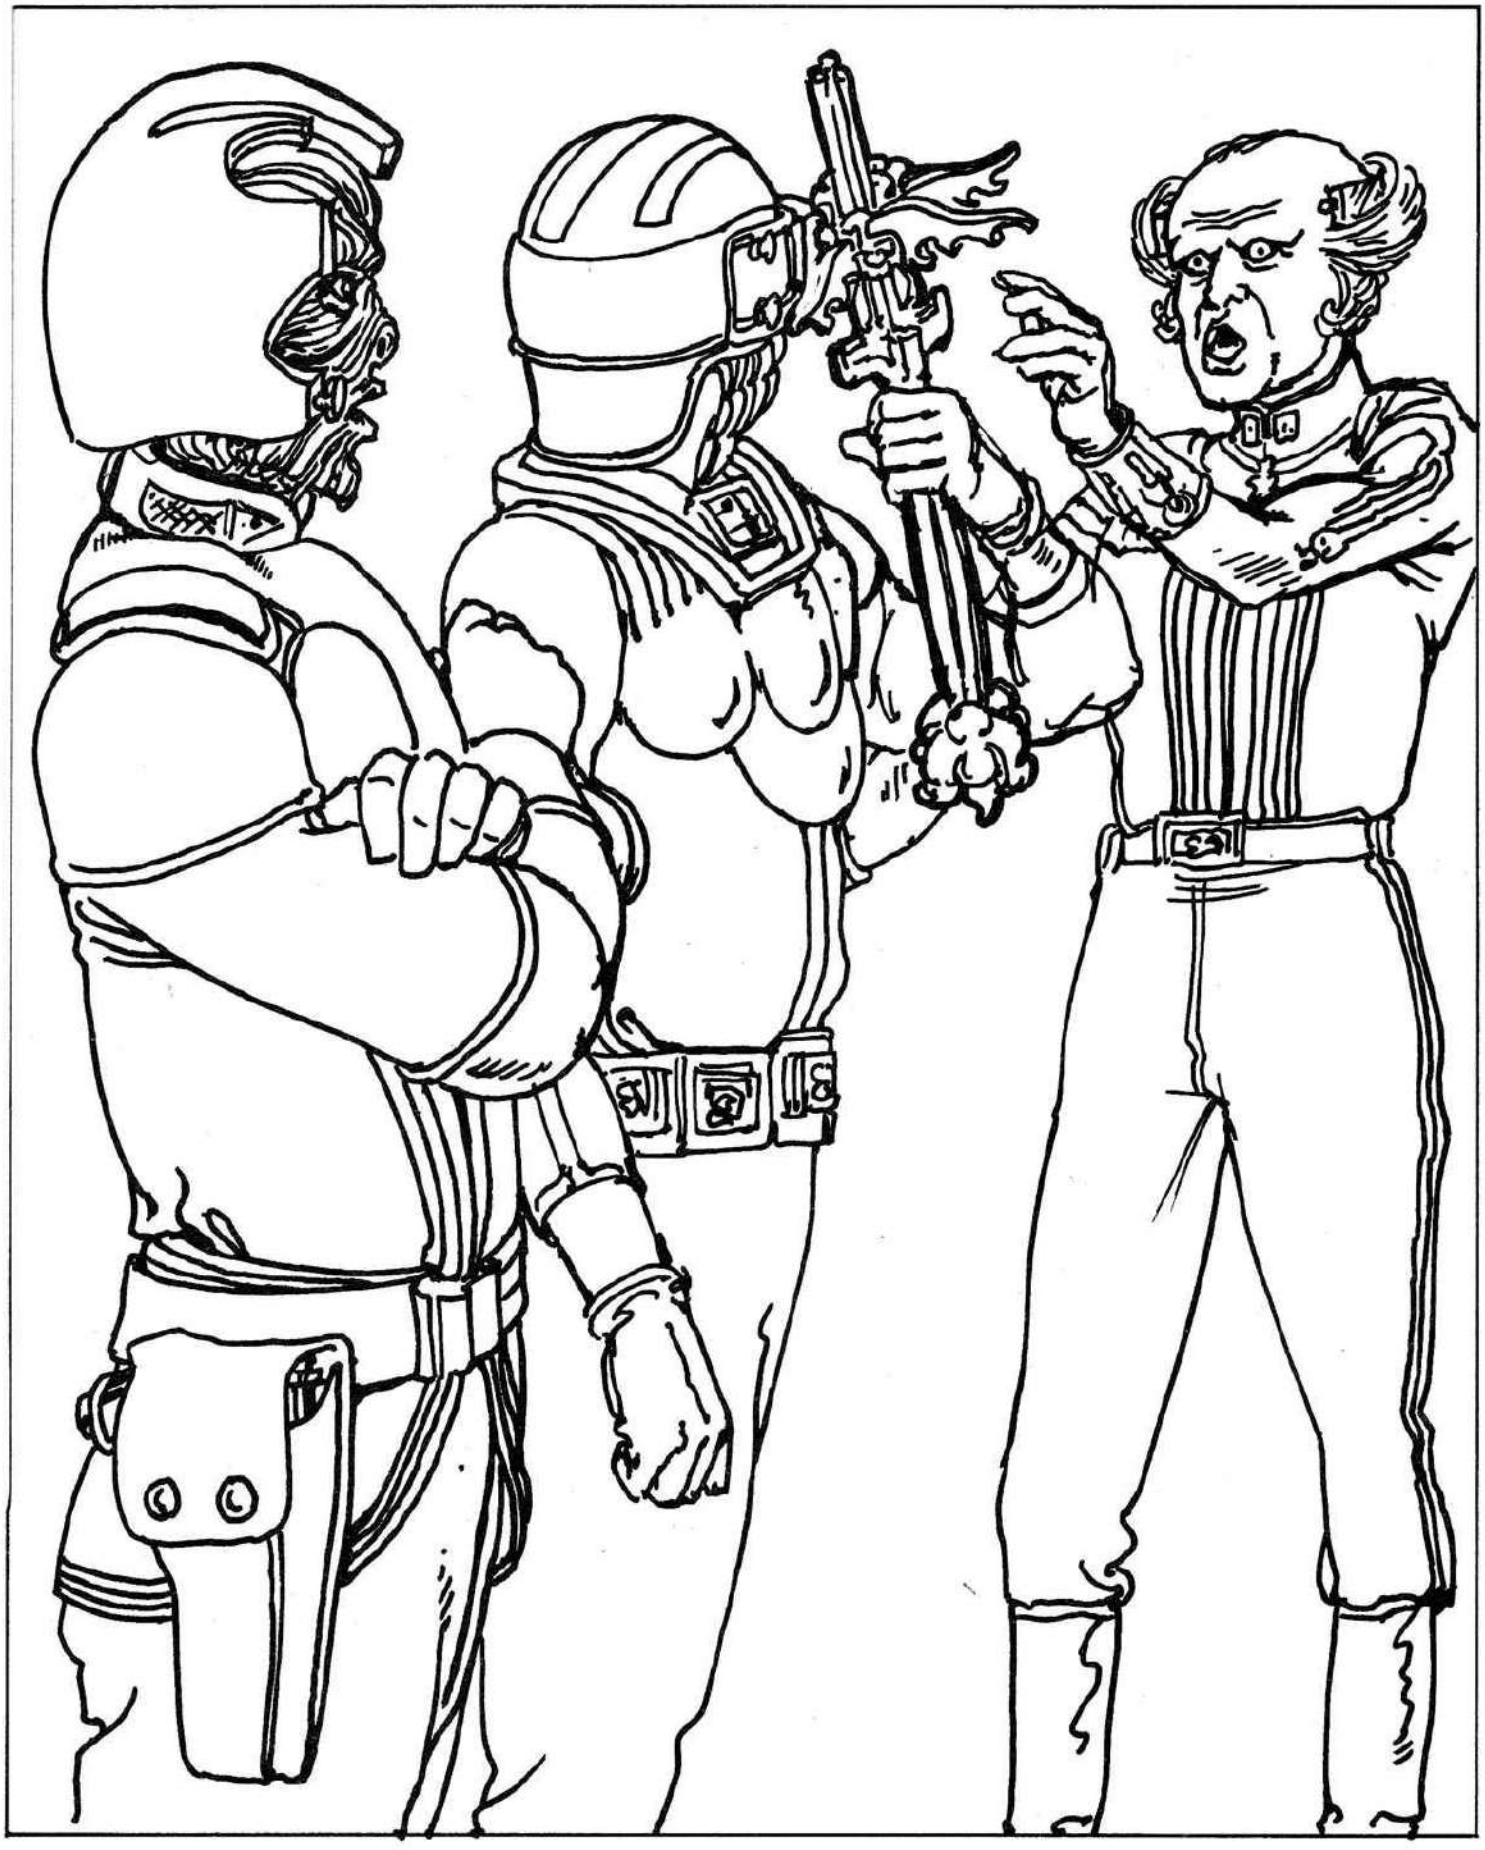
Beta finally tells Maggie, "I'm a robot, you see!"

"We must get that hitbeast before he tells Xur that I'm a robot," Beta says.

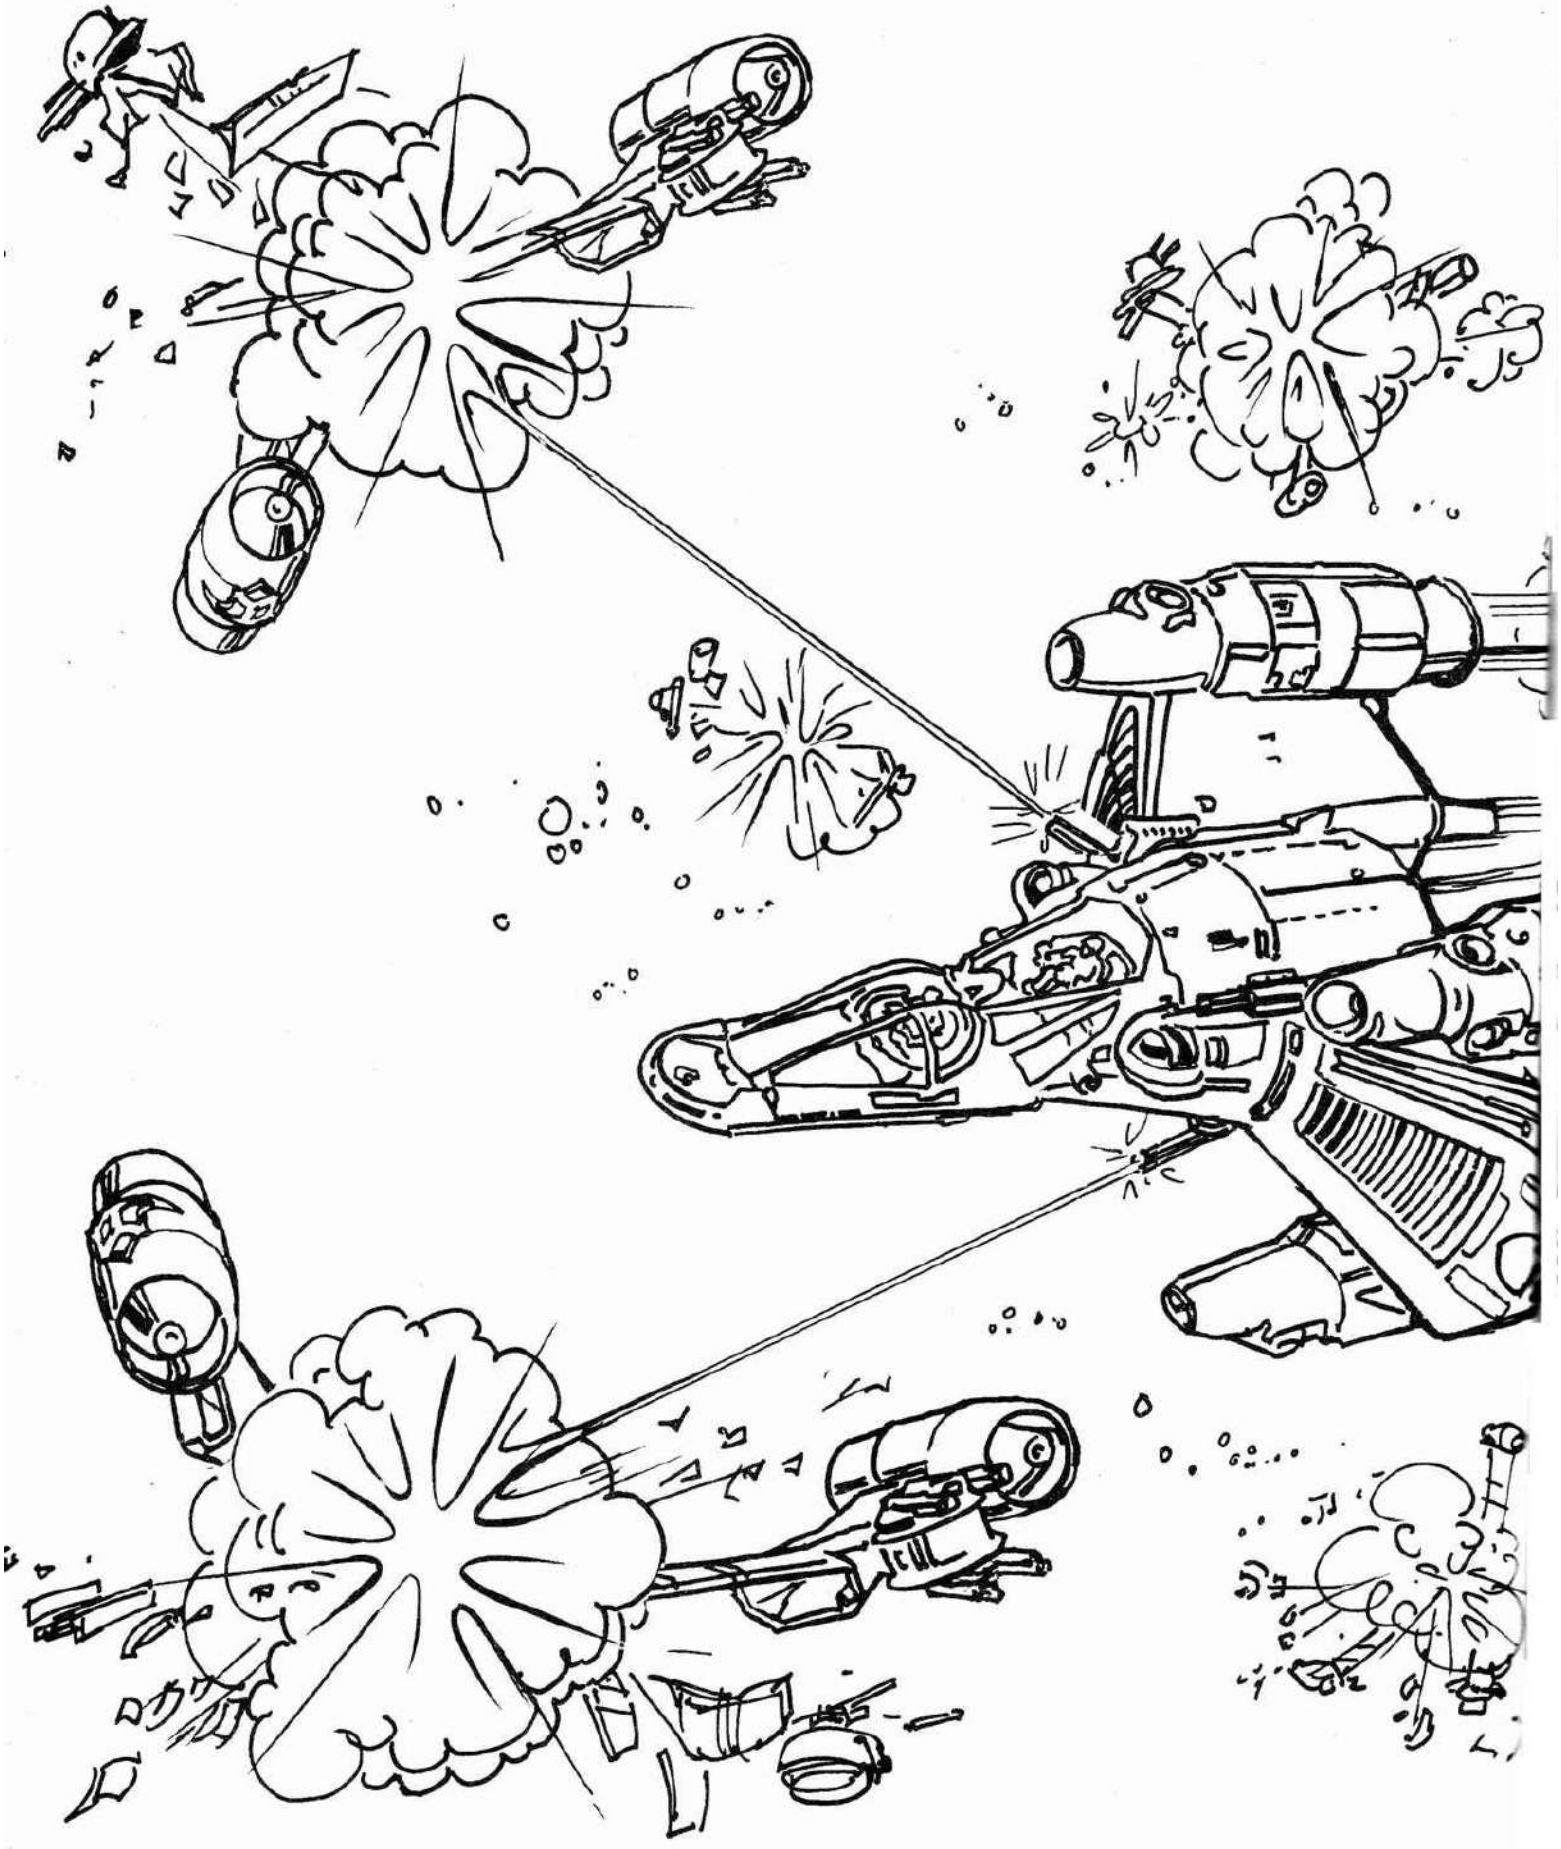
In a last desperate attempt to contact Rylos, the hitbeast begins his report...

Maggie jumps just in time, but it's over for Beta as their truck crashes into the hitbeast and his spaceship.

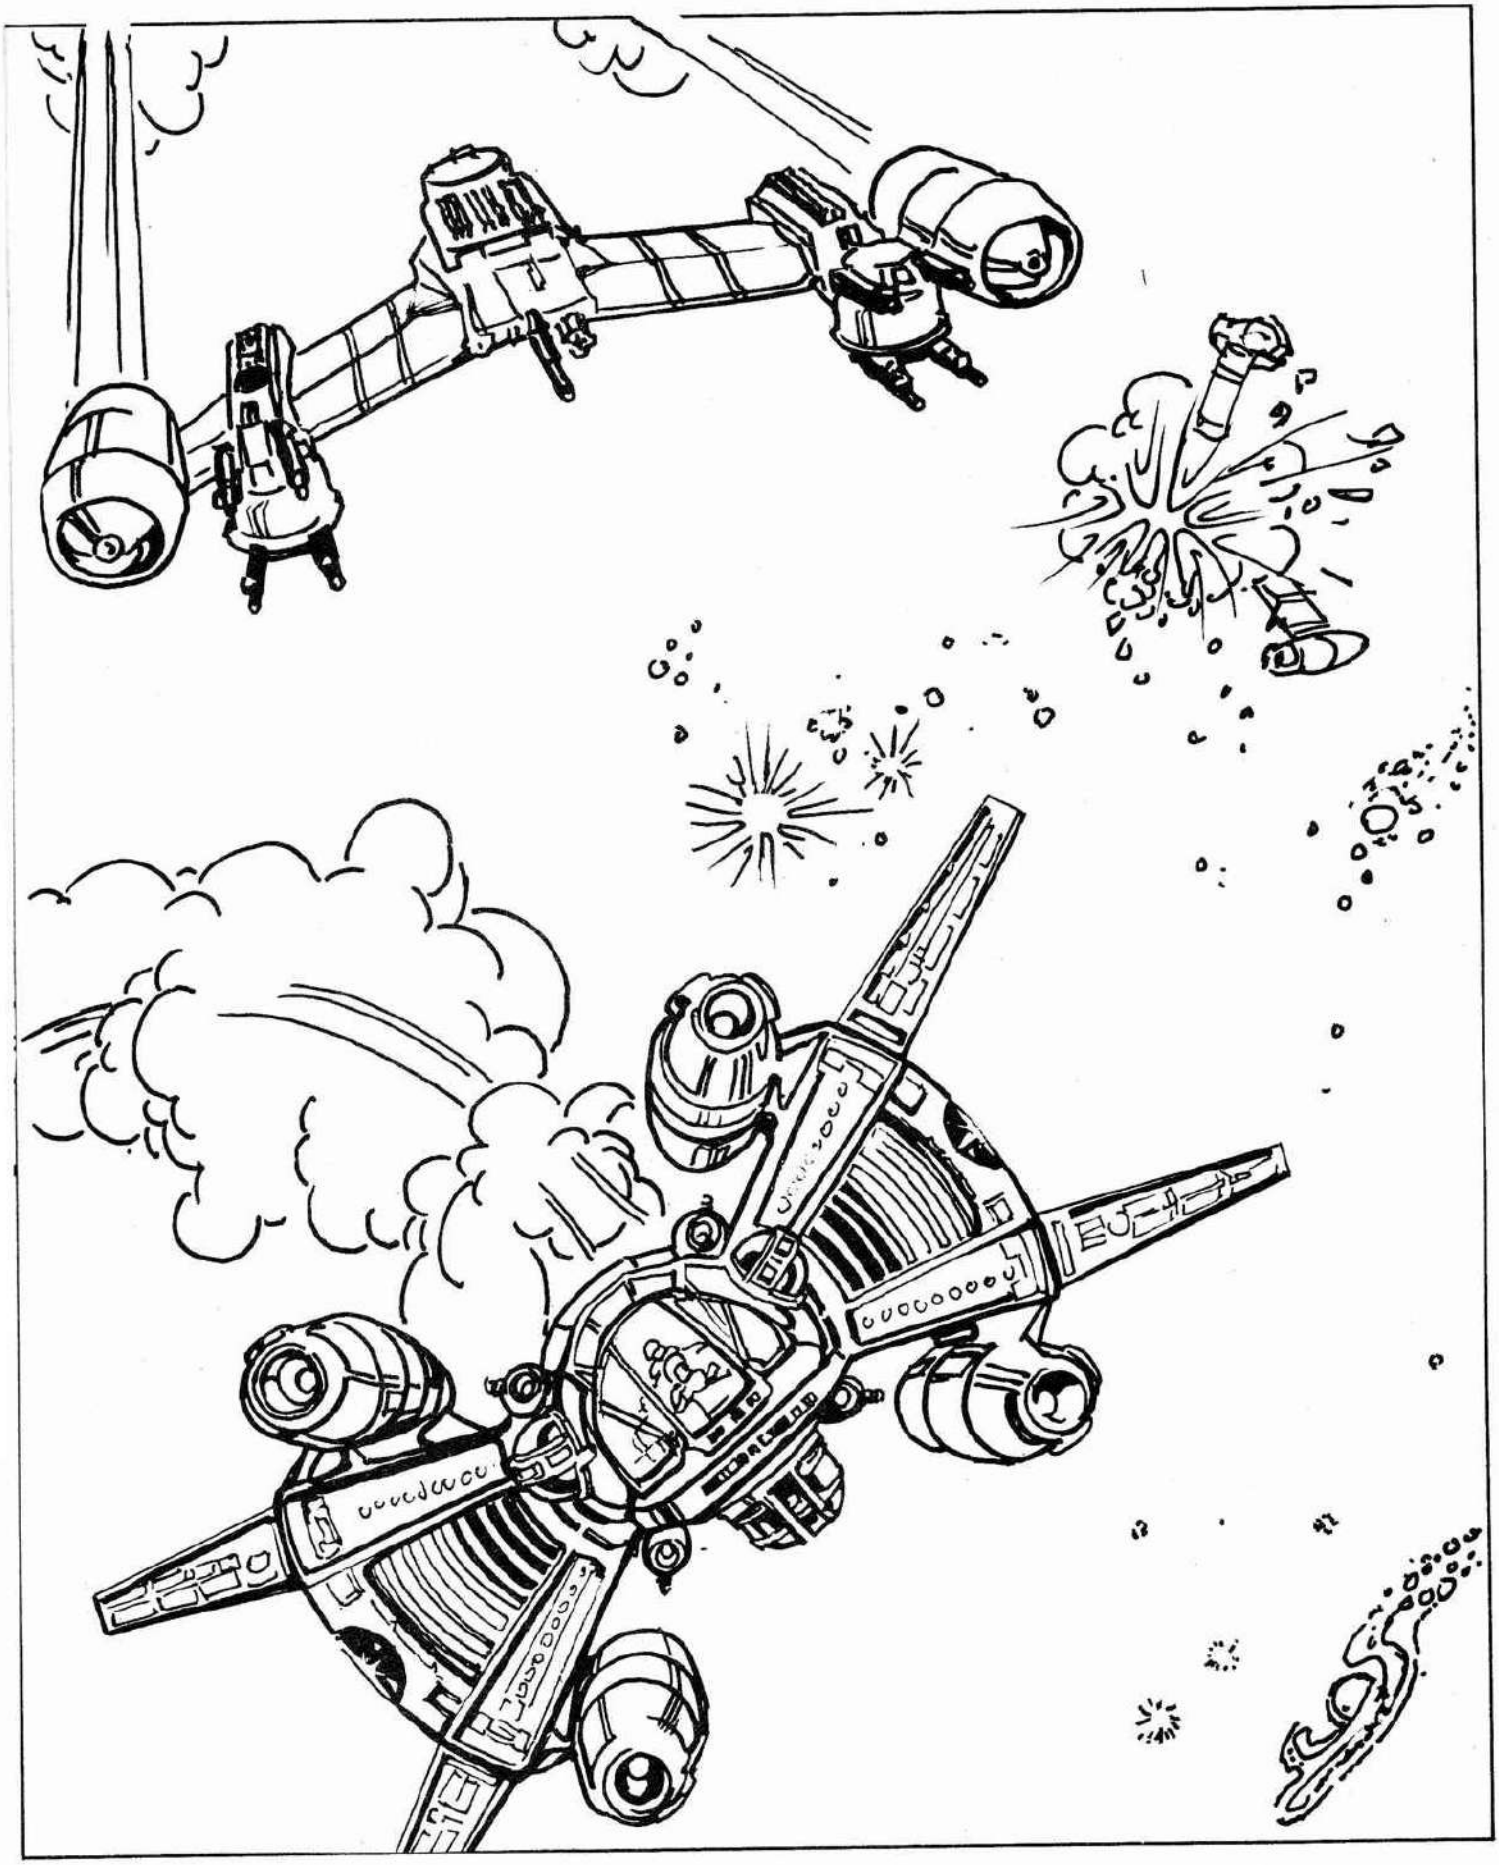
Xur, thinking that Alex is dead, says, "The planet will be ours soon."



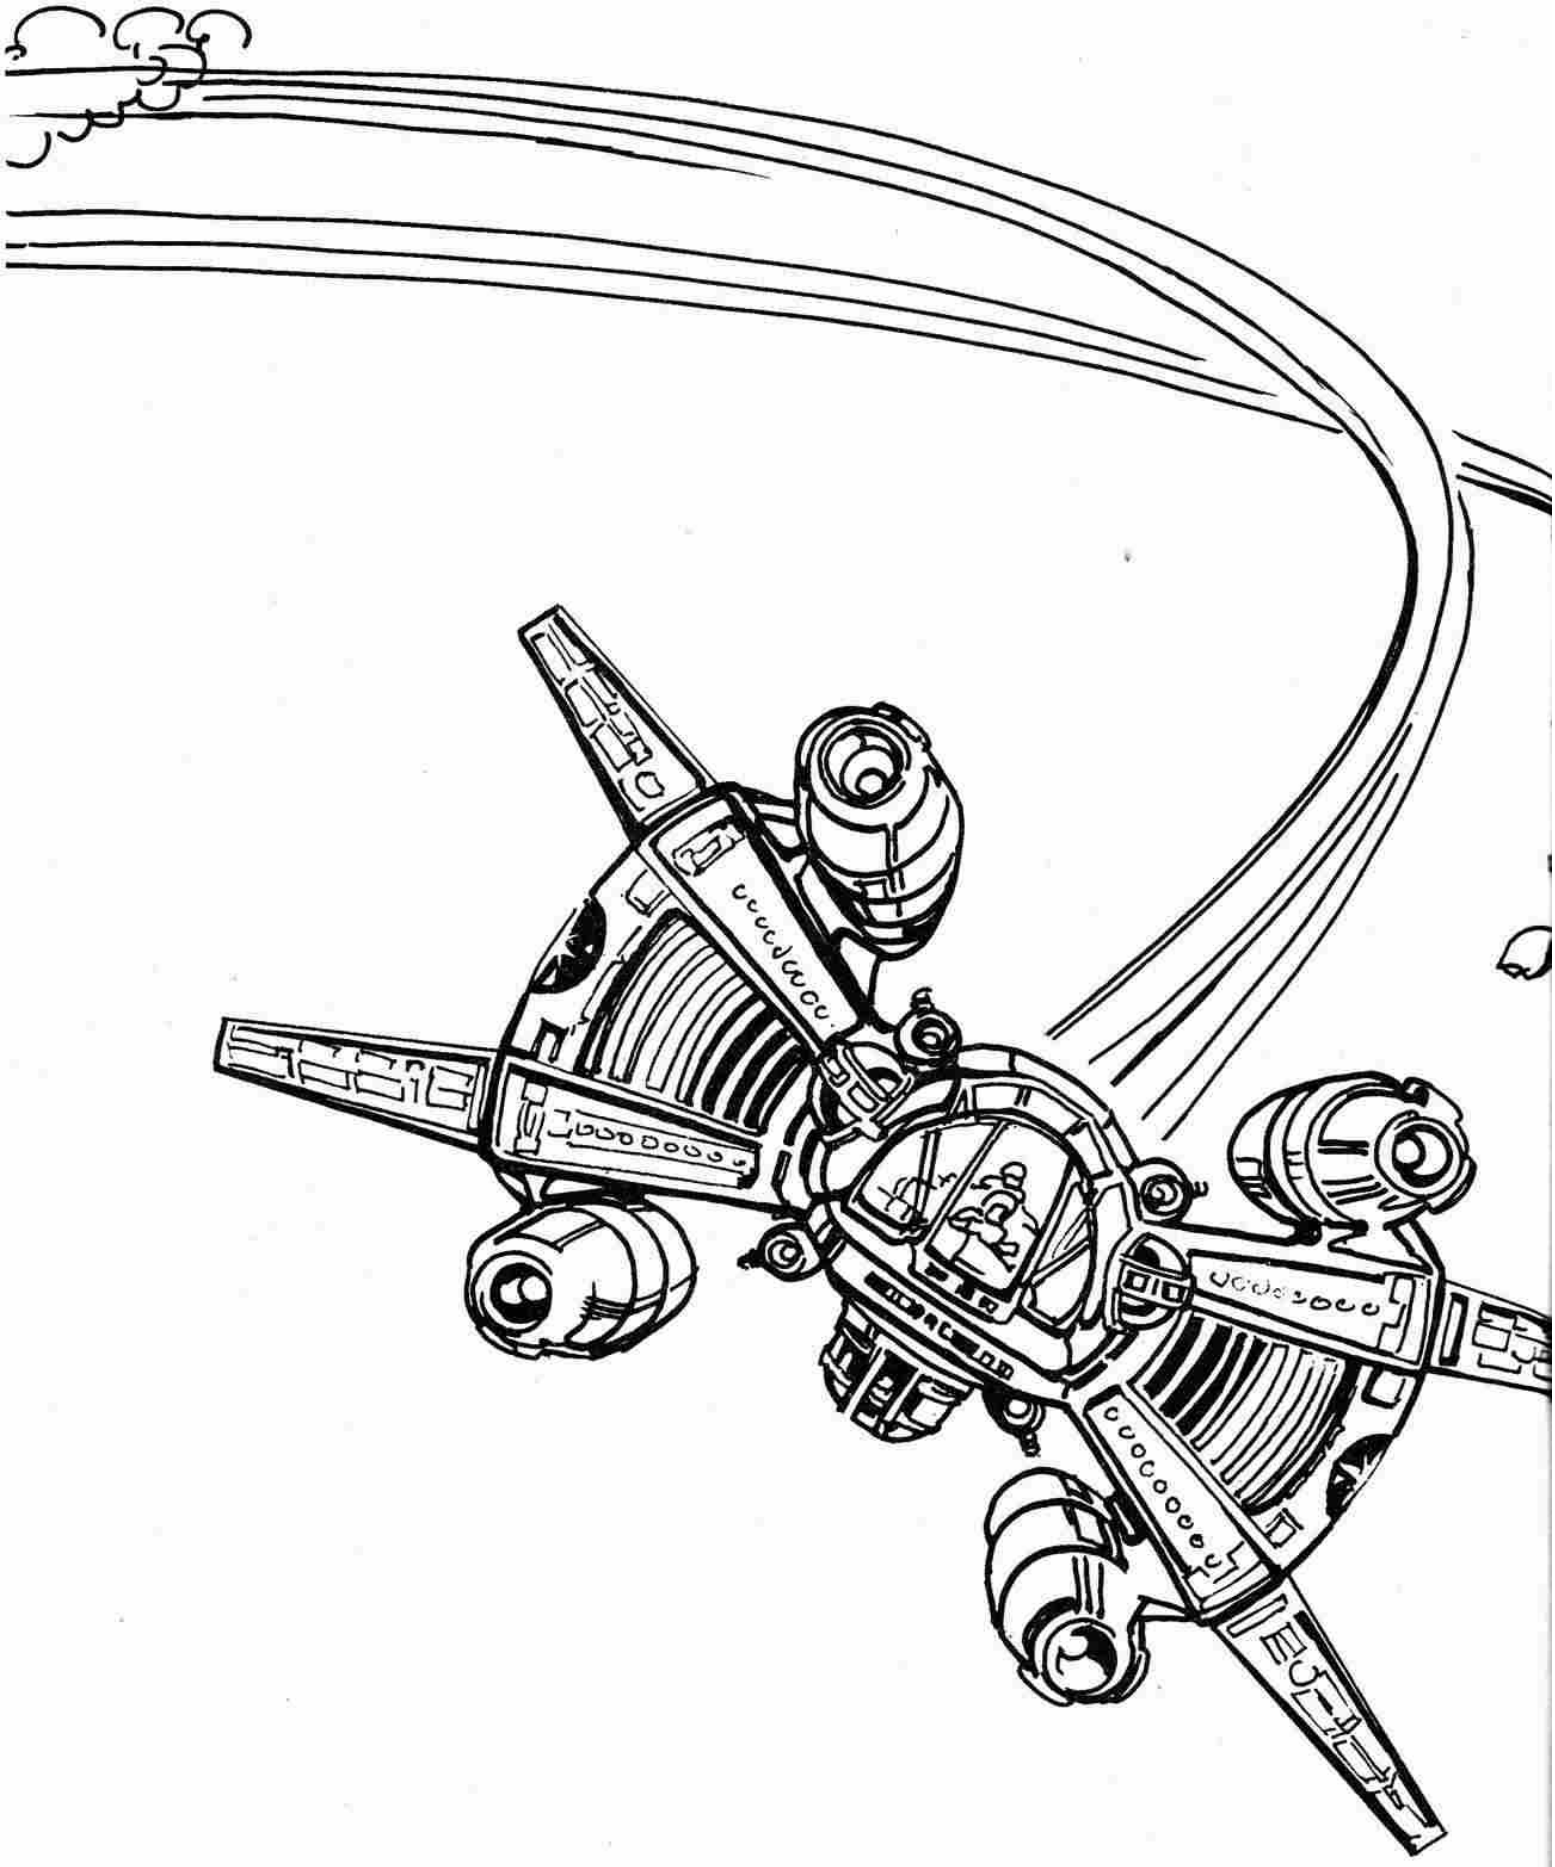
Xur is relieved of his command when they realize one starfighter has survived!



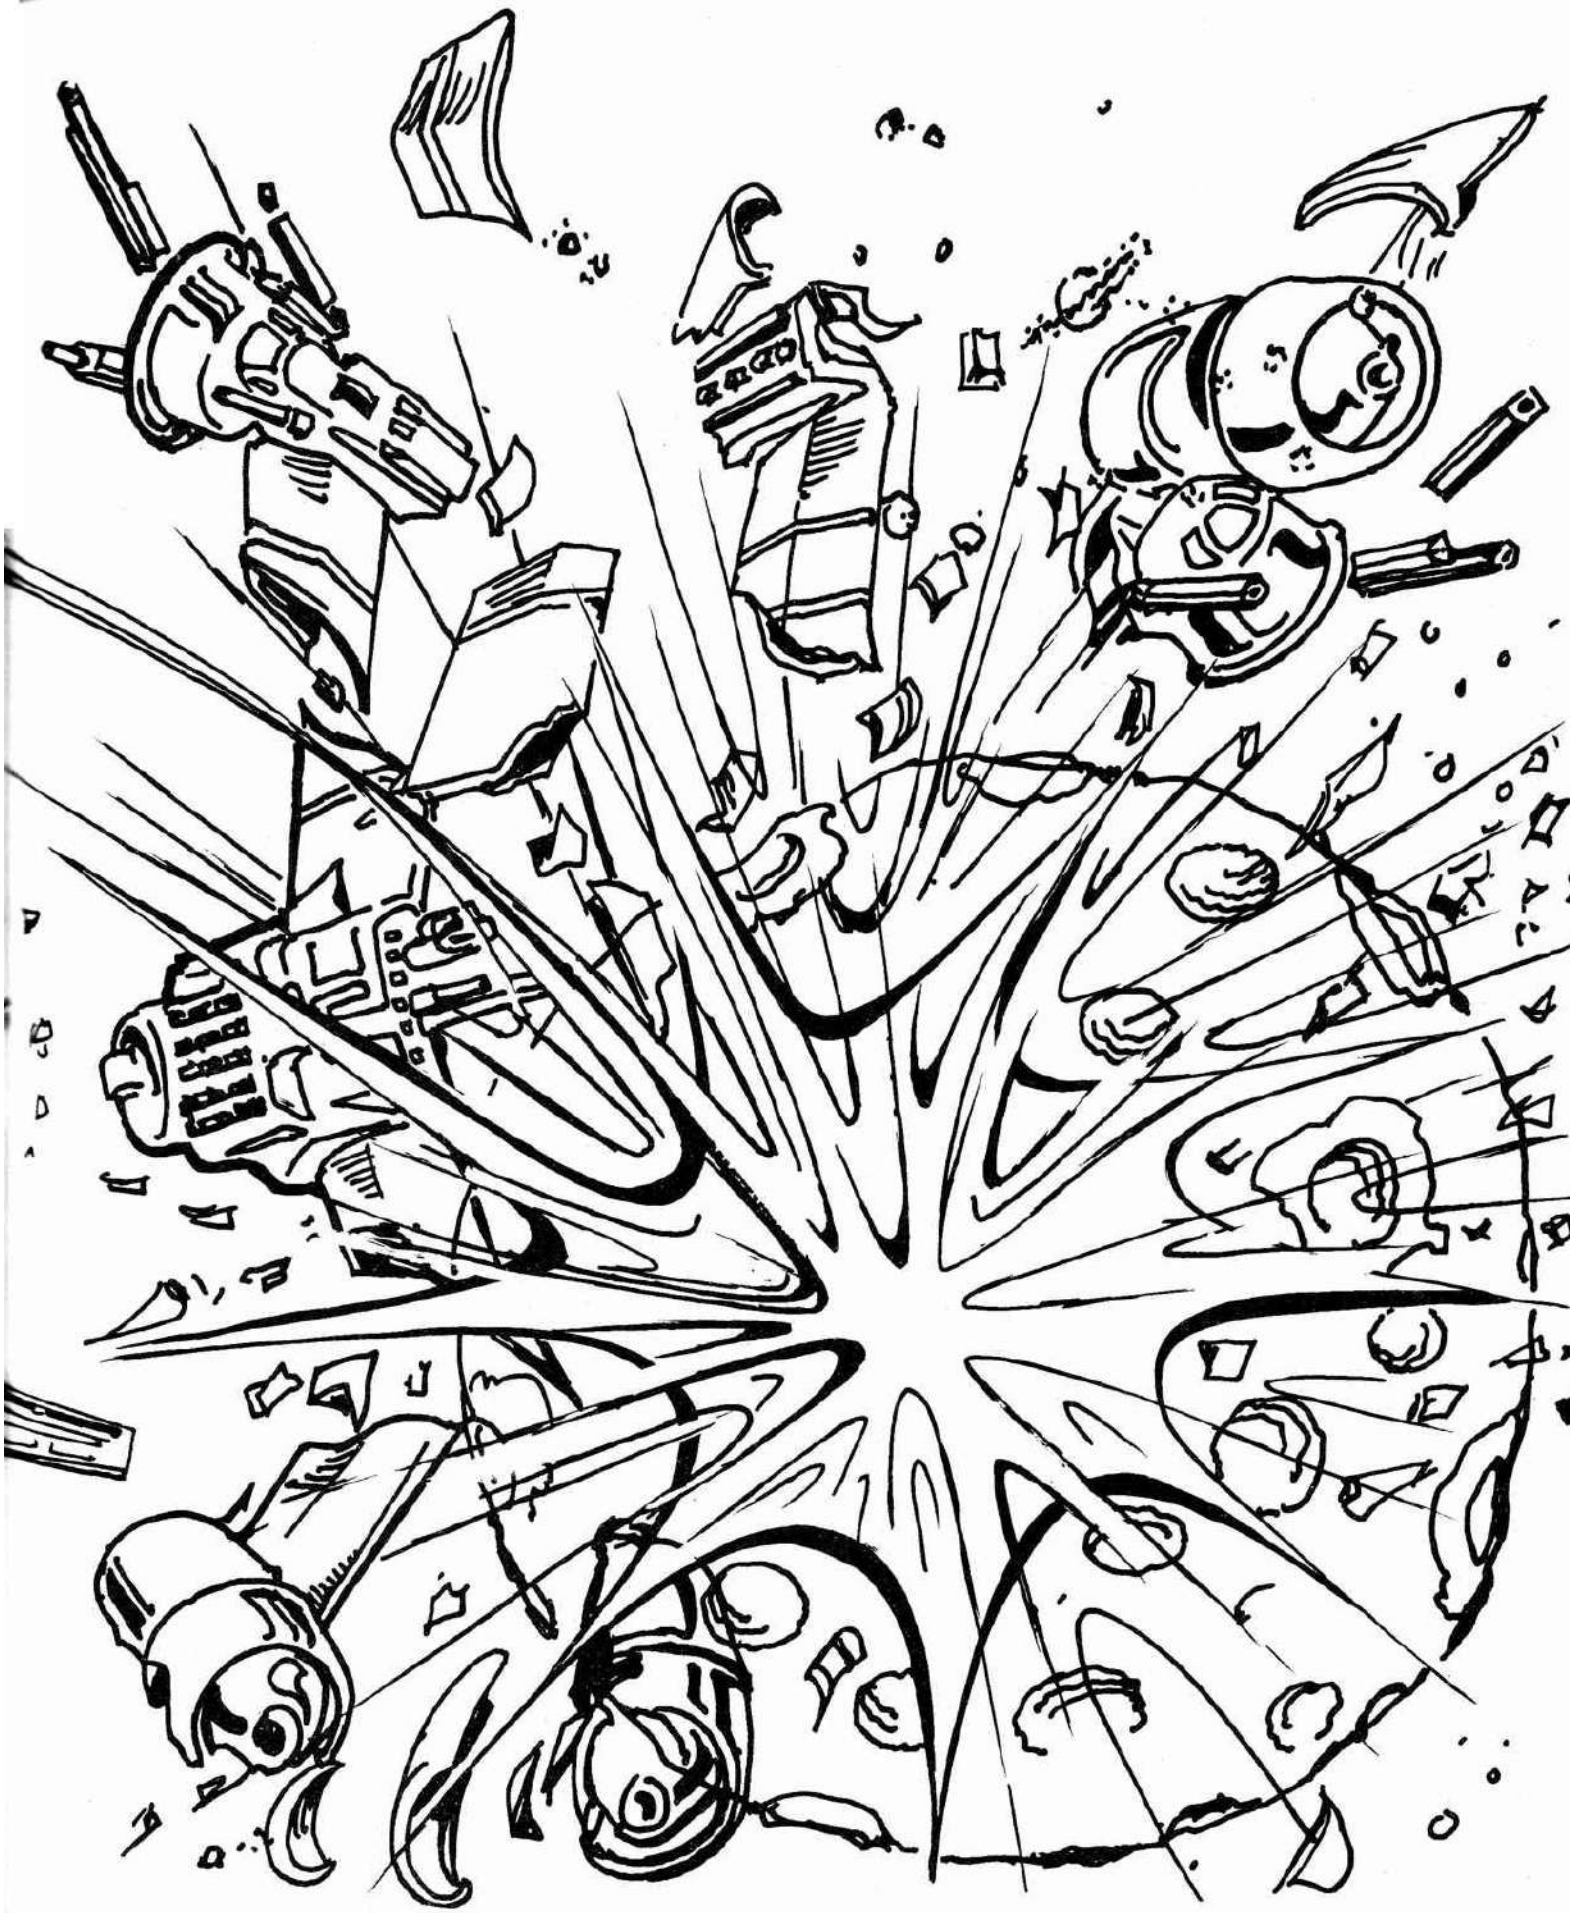
Meanwhile the battle is in full force. The Ko-Dan attack!



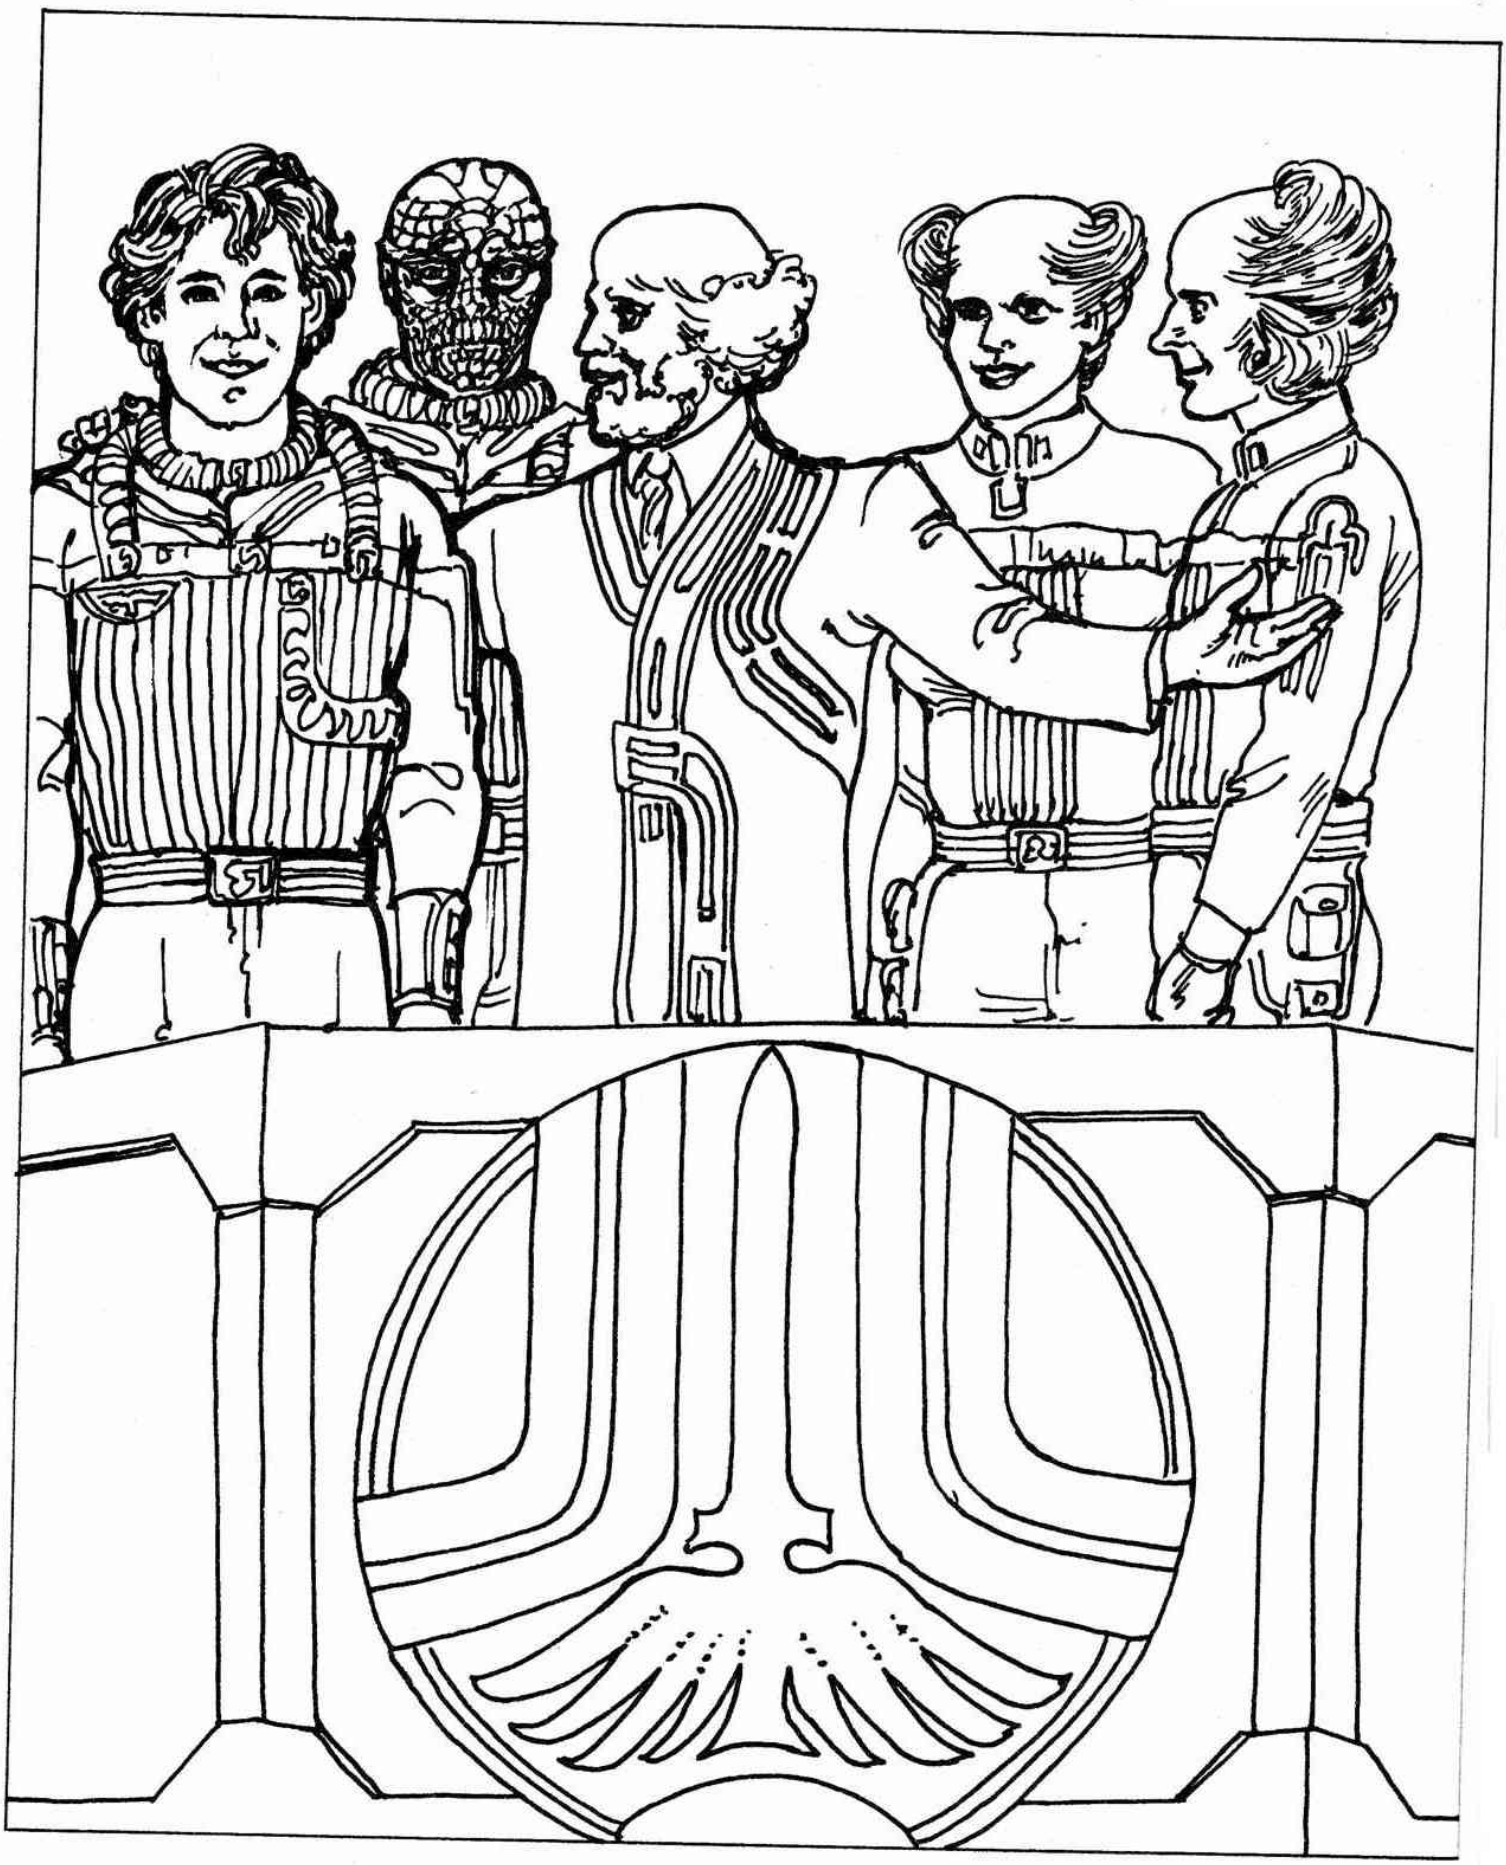
The starship is losing power!



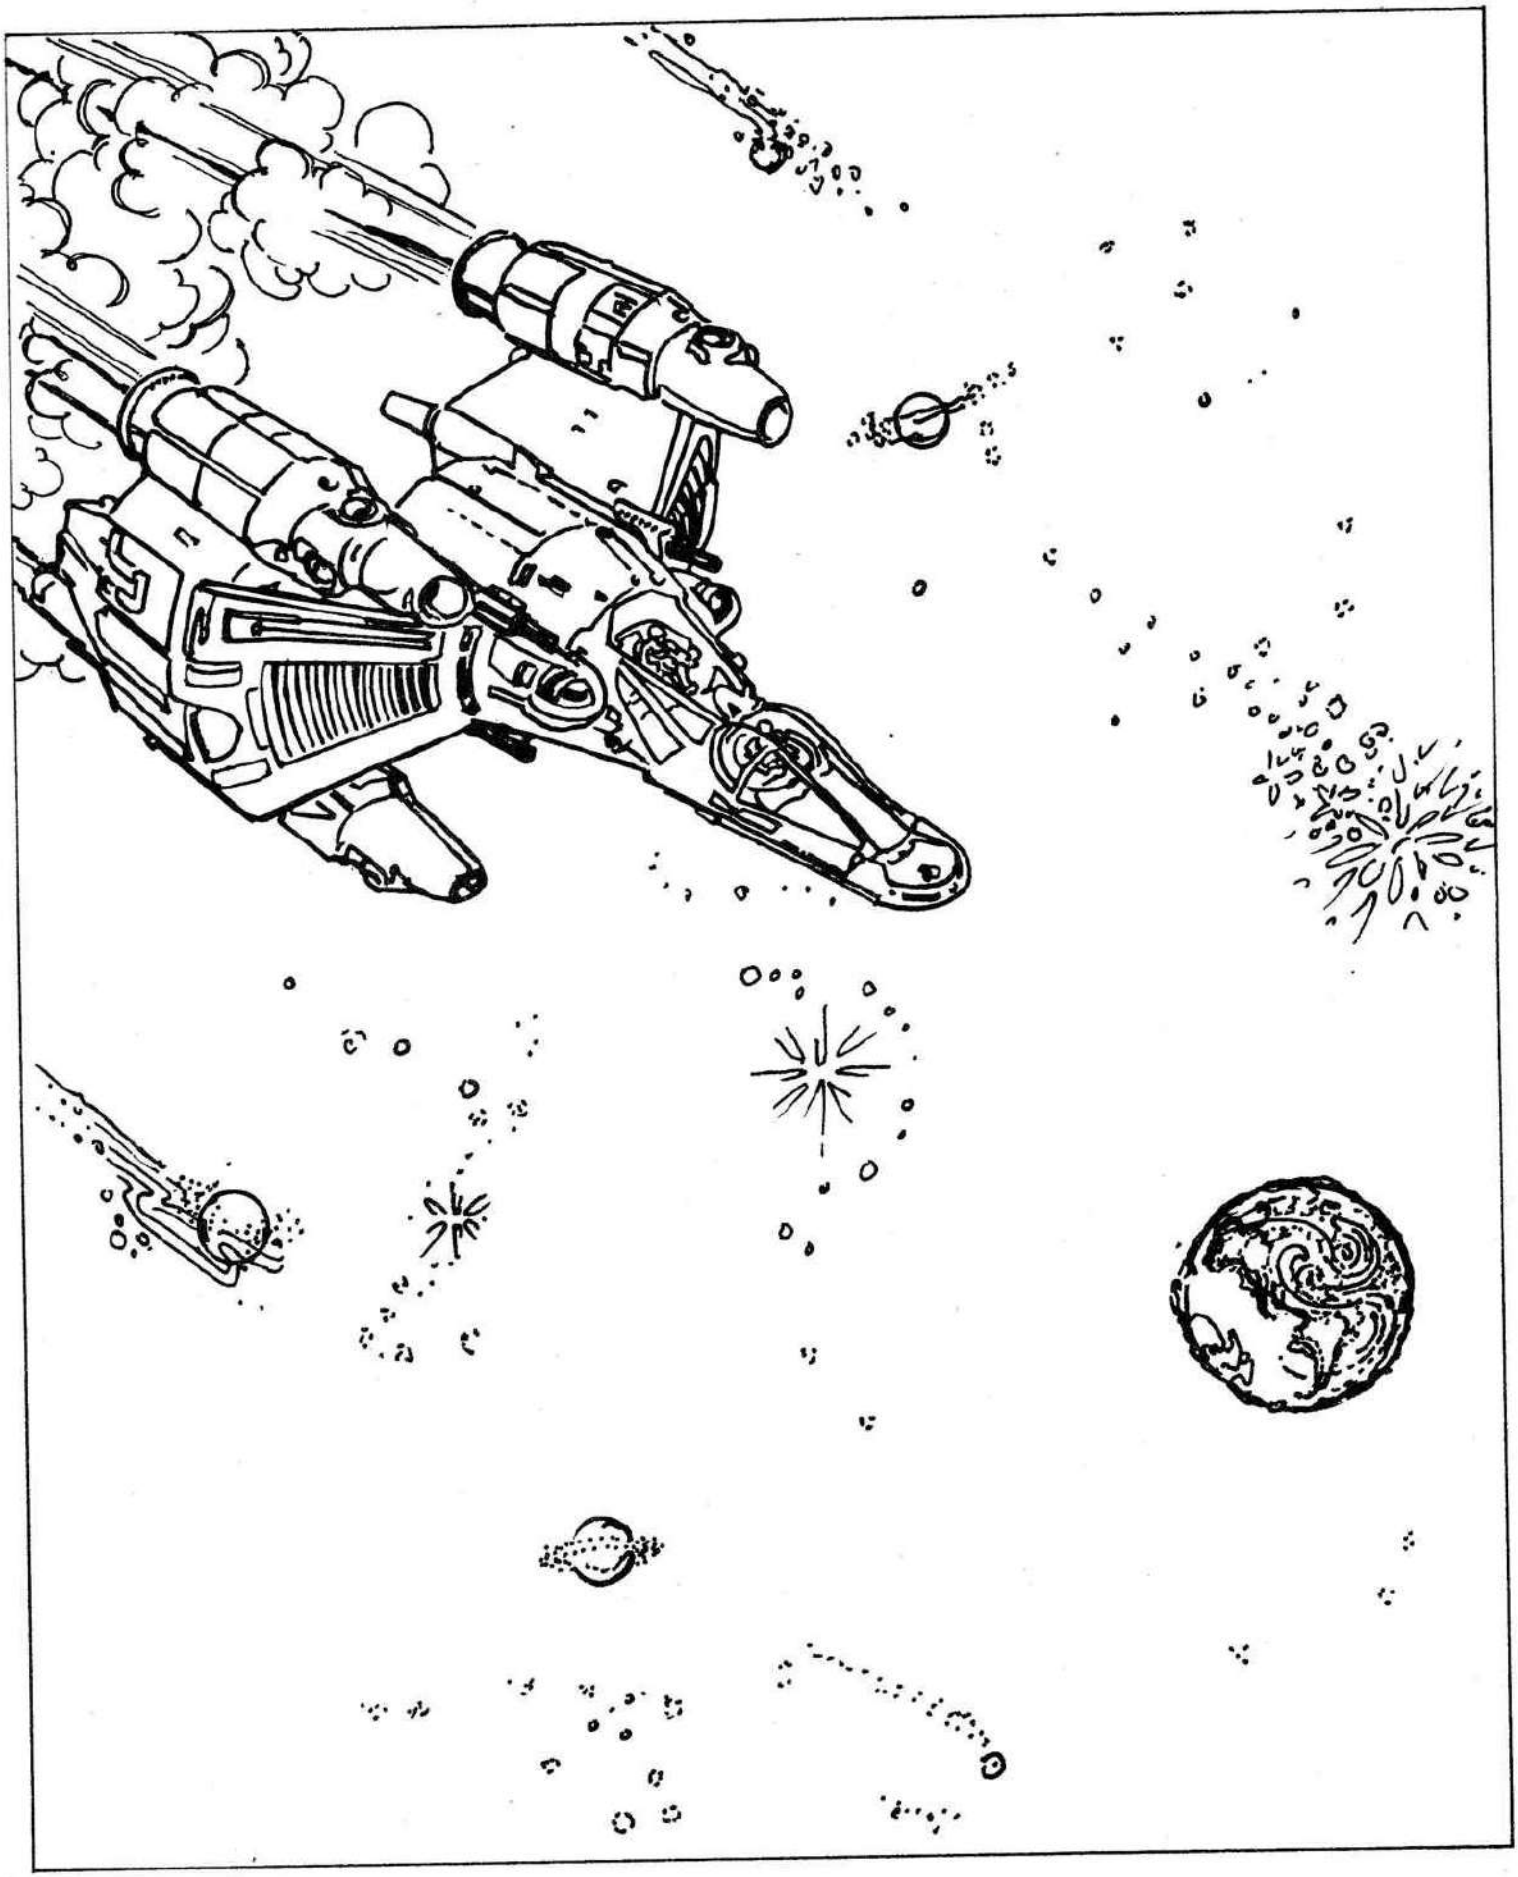
The Ko-Dan attack again...



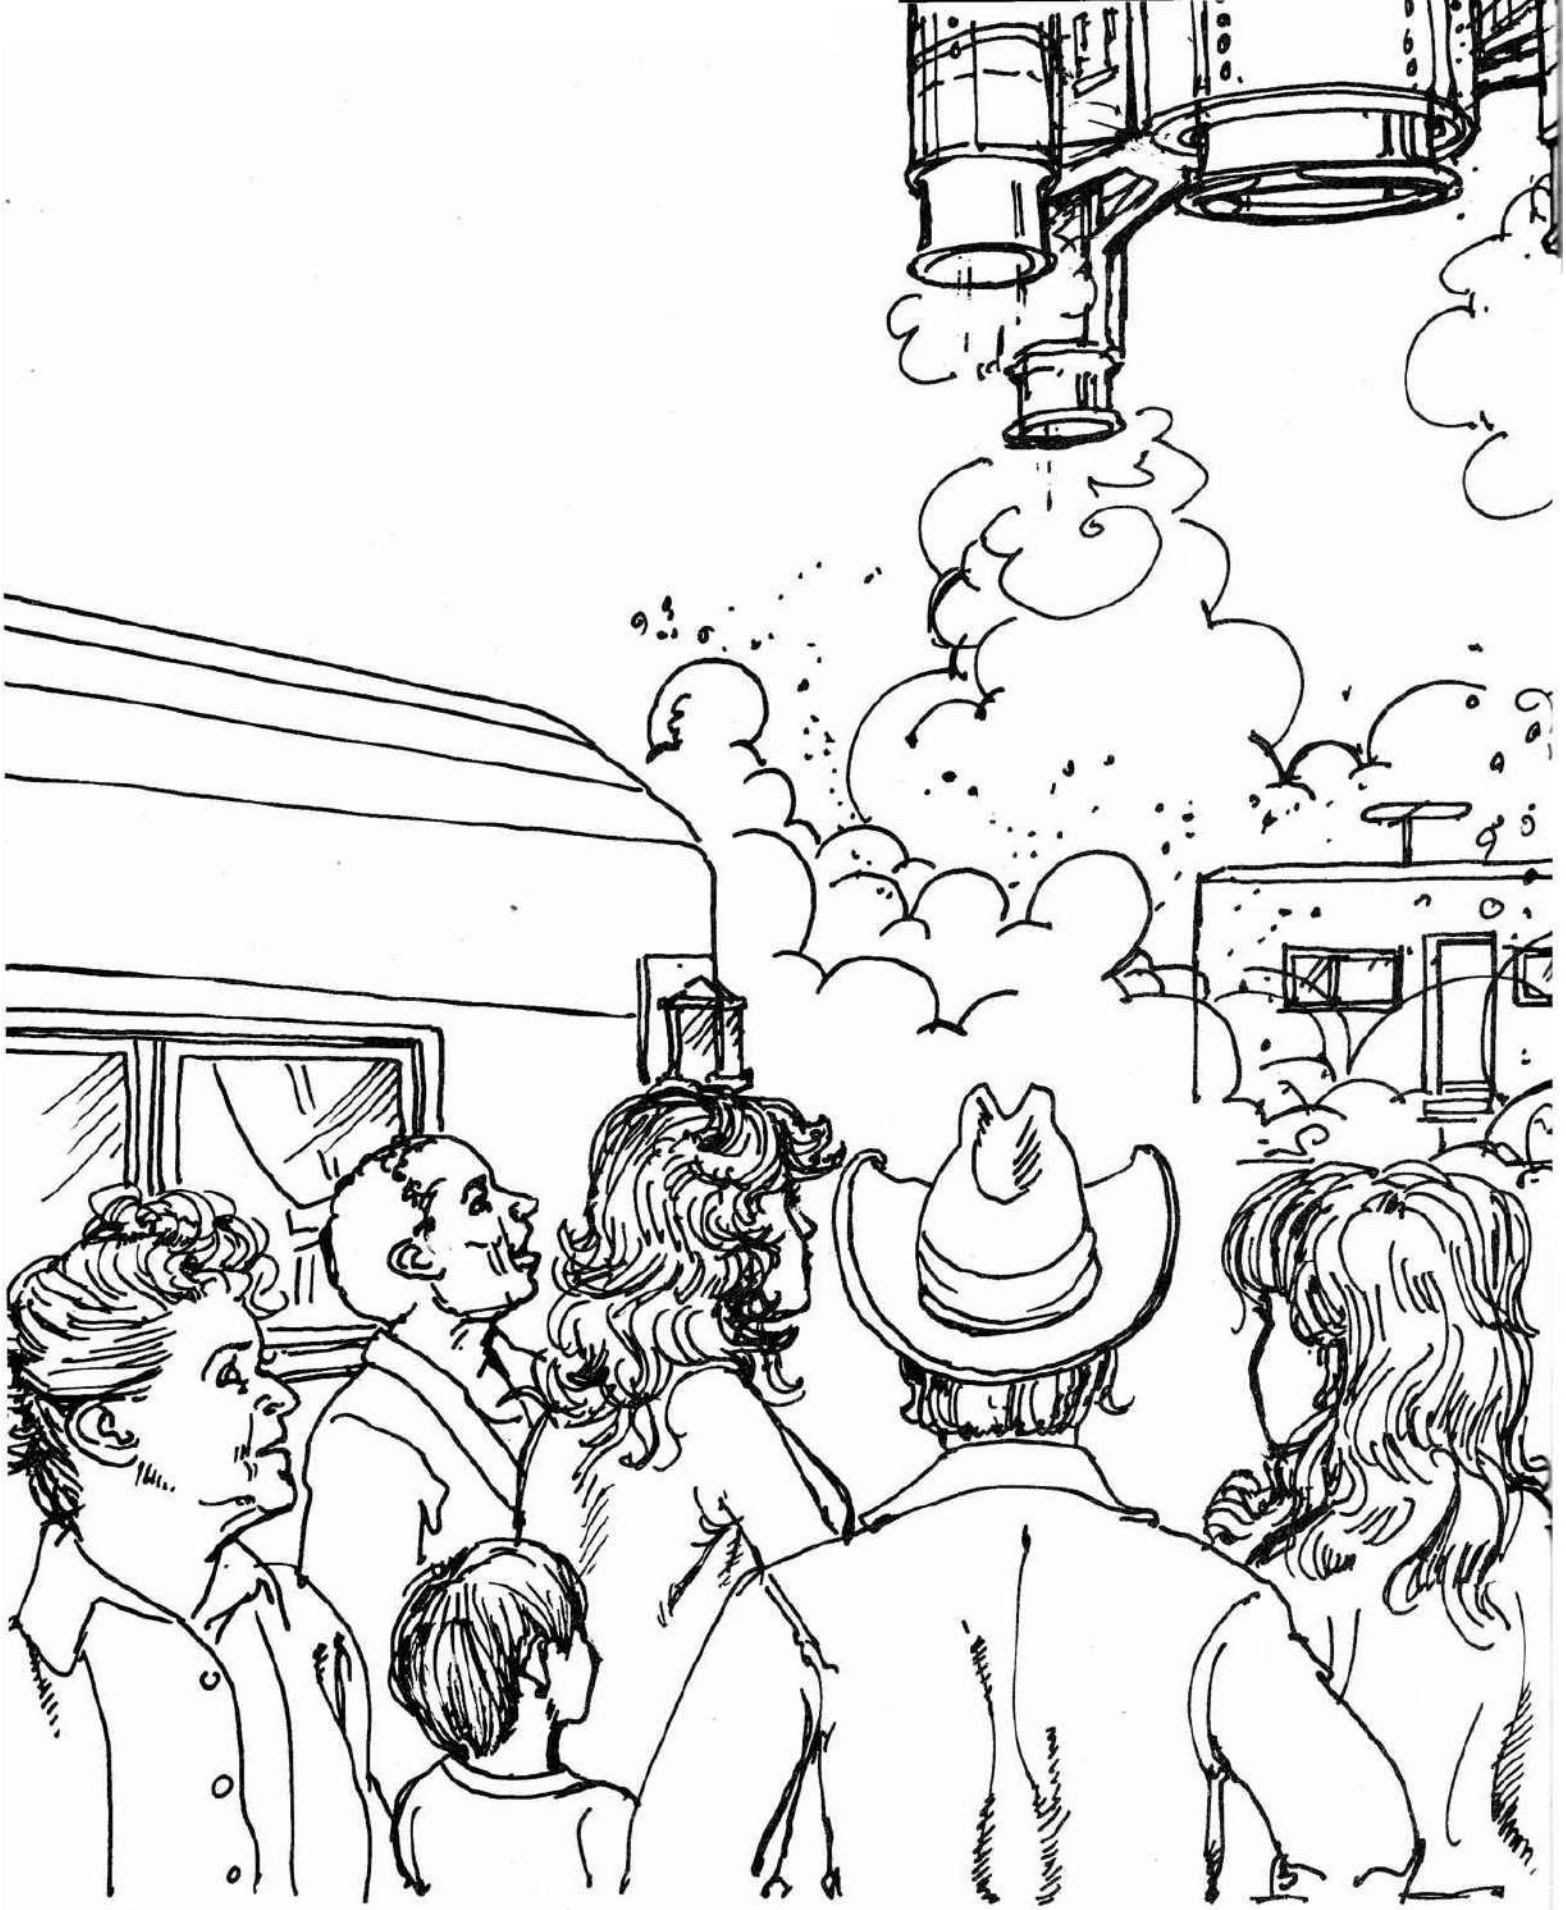
...but Alex and Grig successfully attack the command ship.
Victory for the Star League at last!



"Thank you for saving our planet," says Enduran.



Alex and Grig take off for Earth.

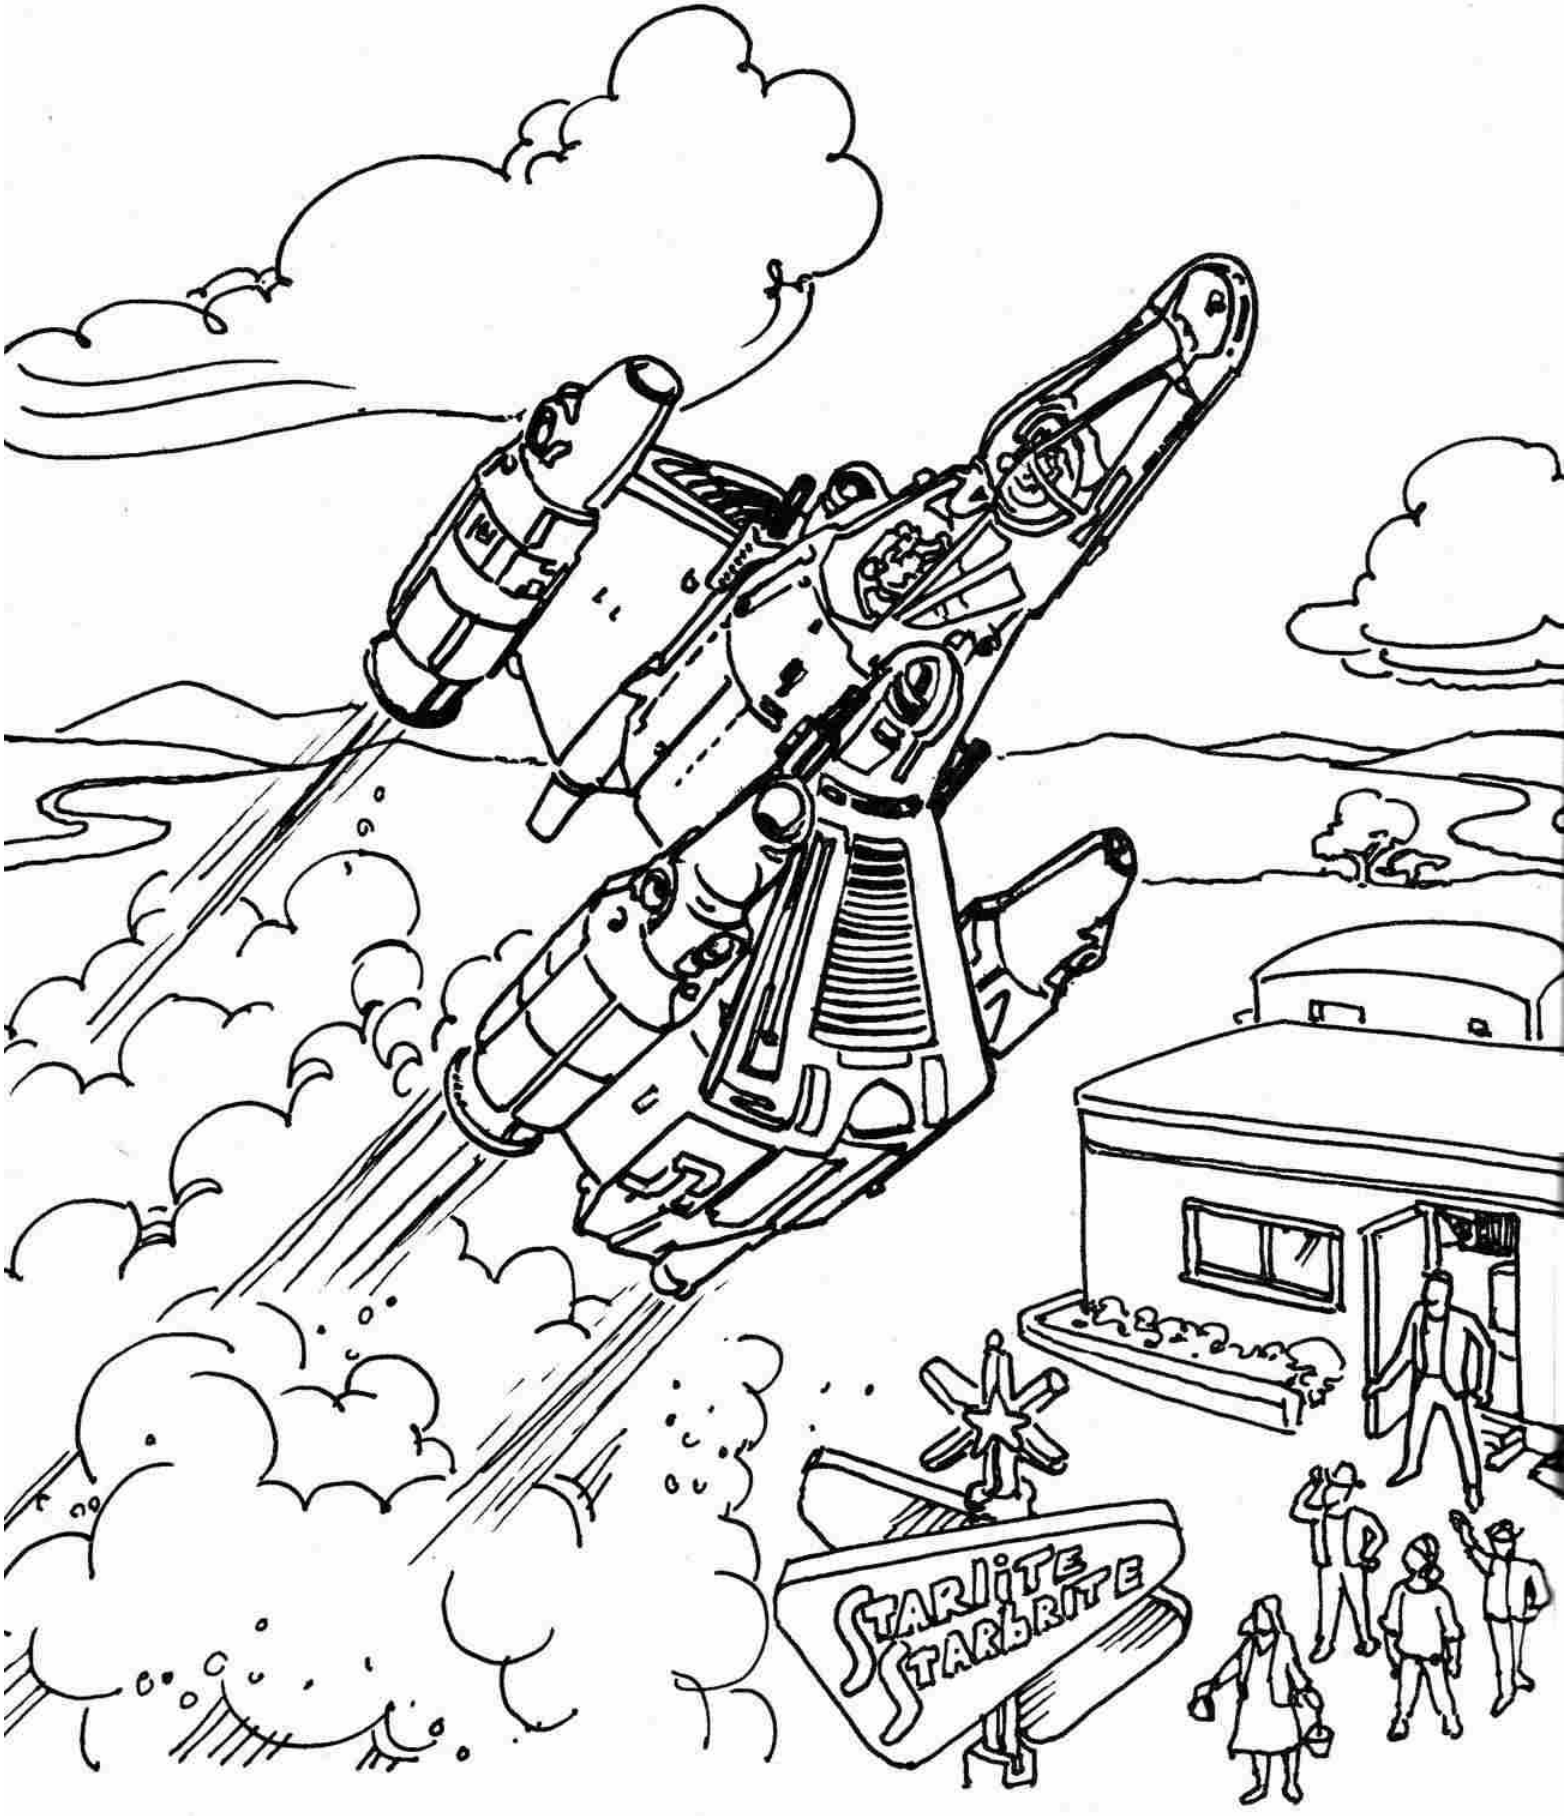


Alex's friends and family look up at the starship in awe.

"It's OK, Granny. Grig is my friend from Rylos," says Alex.

"Please come to Rylos with me Maggie," says Alex. "It's so exciting there."

Maggie can't let Alex return alone.



Alex, Maggie, and Grig take off for Rylos.
